CIRCULAR OF INFORMATION.

4

CLASSICAL DEPARTMENT.

In order to pursue profitably the studies of the Junior Year students should be well grounded in Modern Geography, the elements of English Grammar, and Arithmetic through Decimal Fractions. A much greater proficiency in English studies is found to be of great advantage, and for want of it students not infrequently fail to maintain their place in the class, or fail of promotion at the end of the year.

The completion of the Course of Study prepares the student for any college. *It is of the greatest advantage that the student enter the school at the beginning of the course.* Candidates for advanced standing are examined in the studies already passed by the class they propose to enter. Emphasis is laid on the requirements in Latin Grammar and Composition, and Greek Grammar and Composition ; past experience shows that the candidate is liable to over-estimate his attainments in these subjects. General information must not be regarded as an equivalent for technical scholarship; nor mere translation for systematic drill in the forms and usages of language.

A variety of optional and extra studies is offered, especially in the Senior Year, to meet the wants of students who are fitting for definite college requirements, or are to enter advanced divisions in classics, mathematics, natural sciences, or modern languages at the colleges; and also to provide for ambitious students who may wish to broaden their preparation. It is not practicable to show all the possible combinations in the " Course of Study " below. The classes in Physics and Chemistry are afforded ample facilities for practical work in the laboratories. Special students, as such, are not provided for, nor does the Academy undertake to fit boys for college in a minimum of time.

ENGLISH DEPARTMENT.

The object of this department, established in 1830, is to afford a substantial course of study, chiefly on the basis of Mathematics and the Natural Sciences, with History, Latin, Modern Languages, and Literature.

The preparation required for admission is indicated by the "Course of Study" below. The studies of the Junior year are not pursued as elementary studies. Candidates for advanced standing are examined in the studies already passed by the class they propose to enter.

The study of Latin is required of all pupils in the Junior Middle Year. The course is so arranged that students may take preliminary examinations for the best scientific schools at the end of this year.

In the Middle Year French or German is required and Latin is elective. Those who complete successfully this year are prepared for admission to the Sheffield Scientific School of Yale College, the Massachusetts Institute of Technology, and other scientific schools and colleges.

The studies of the Senior Year are designed for pupils who desire a broader preparation for scientific or professional schools, and more particularly for those who do not intend to go to a higher institution. Students who complete the course receive a diploma.

For illustrating the principles of Natural Philosophy the school is provided with excellent apparatus, which is used in lectures given in connection with the text-books. There is also a well equipped Physical Laboratory, for experimental work. An appropriation of $300 is made each year to procure the latest and best instruments.

The Academy is provided with a full set of instruments for the course in practical surveying, consisting of a solar transit, surveyor's compasses, levels, and other appliances.

The Chemical Laboratory is fitted with tables and apparatus for practical work in General Chemistry and Qualitative Analysis.

The Newton Cabinet contains several thousand specimens of rocks, minerals, fossils, insects, shells, and other illustrations in Natural History, and a small collection of coins, stone implements, and other valuable antiquities.

	LATIN: Caesar, Gallic War, Books II, III, IV. Exercises in writing.	MATHEMATICS: Arithmetic, including metric system, completed.
THIRD TERM.	MATHEMATICS: Arithmetic, including the metric system, completed.	ENGLISH: Parsing and Analysis. Reading and Spelling.
	ENGLISH: Reading. Study of words. Dictations. Declamations.	PHYSIOLOGY: Tracy. Use of Charts and Skeleton.
	NOTE. — The Algebra of the Junior Middle Year may be substituted for the Arithmetic of the Junior year by those pupils who show themselves qualified to pass successfully a strict examination in Arithmetic, including the Metric System. The amount of Latin done in the Junior year must be estimated on the basis of six recitations a week, full hour periods, and involving a large amount of drill as well as instruction.	

JUNIOR MIDDLE (THIRD) CLASS.

	CLASSICAL.	ENGLISH.
FIRST TERM.	LATIN: Caesar, Gallic War, Books I, V, VI. Reading at Sight. Exercises in writing. Roman History (outlines). GREEK: Grammar (Hadley), and Lessons (Coy's Mayor). MATHEMATICS: Algebra; through Simple Equations. ENGLISH: Readings; College requirements. Declamations.	MATHEMATICS: Algebra; through Simple Equations. ENGLISH: Rhetoric. Declamations and Essays. THIRD TERM.

LATIN:
Virgil, Aeneid, through Book II. Composition (Jones, to Exercise XXI). Written Translations.

GREEK:
Grammar and Lessons. Xenophon (Coy's First Reader, 22 pages).

MATHEMATICS:
Algebra; Proportion, Progressions, Undetermined Coefficients, Binomial Theorem.

ENGLISH:
Readings. Exercises in Composition.

NOTE. — The course of Physics in the Middle Year of the English Department, the requirement set for admission to Harvard College, is open to those pupils of the Junior Middle Year who have completed the Algebra of this year, and who pass successfully a strict examination.

MATHEMATICS:
Plane Geometry.

ENGLISH:
English Authors. Declamations and Essays.

BOTANY:
Wood's Botanist and Florist.

LATIN:
Lessons. Caesar, Gallic War, Book I (13 chapters), Book II (20 chapters).

SCIENCE:
Mechanical Drawing.

	MATHEMATICS. — Reviews.	MODERN LANGUAGES. — French. German.
	ENGLISH. — Readings. Compositions.	LATIN. — Cicero, selections. Composition. Reading at sight.

NOTE. — An opportunity is given by an increasing number of colleges to pass a preliminary examination (in June only) in a part of the subjects required for admission. This examination must take place at least a year before the final examination. Particulars may be learned from the catalogues of the respective colleges. June examinations, both preliminary and final, are held in Andover by Harvard College, Yale College, Amherst College, and Princeton College.

In order to define the work of the pupil during his last year, it is expected that he will pass this preliminary examination, in case it is offered by the college of his choice.

TERMS OF ADMISSION, ETC.

Students who wish to enter the Academy are required to furnish testimonials that they sustain a good moral character. Certificates of standing in their last schools are also required.

No age is prescribed for admission. Boys fourteen years of age usually possess sufficient maturity for the responsibilities of school-life here. The school is not a suitable one for boys who are idle, wayward, or averse to study, or for such as require the supervision of a teacher and the routine of a school-room to enforce industry and fidelity.

The School Year begins with the Fall Term; but students may enter at any time, if qualified to join some class already formed. While they remain they will be enrolled in one of the regular classes, and will pursue the prescribed course; exceptions are only provisional.

Entrance Examinations. — Candidates for advanced standing will be examined on Wednesday, Sept. 11, in Latin at 10.30 A.M., in room 7; in Mathematics at 1.30 P.M., in Room 2; in Greek at 3 P.M., in room 9. Candidates for the English Department will be examined, for the Junior Middle Class at 10.30 A.M., in room 5; for the Middle Class at 1.30 P.M., in room 6; for the Senior Class at 3 P.M, in room 5.

Examinations for advanced standing are also held on the first day of the second and third terms at 10 A.M.

A fee of one dollar is charged for examinations held at other times than those above stated.

The school day begins with prayers at 8.10. On Monday morning the several classes meet their respective teachers at the same hour for Bible study. The students attend church regularly on Sunday at the Chapel erected for the joint use of the Theological Seminary and the Academy, unless excused to attend elsewhere. The churches in town are Congregational, Protestant Episcopal, Baptist, and Roman Catholic.

Examinations, conducted in writing, are held in each study once, at least, in each term; and at the end of the first and second terms in the studies of the term; and near the close of the year with reference to promotion and graduation. Promotion and graduation are secured only by those who give satisfactory evidence of the requisite proficiency.

Reports of the standing and deportment of the students are sent to parents or guardians at the close of each term; and at other times when occasion requires.

EXPENSES.

Parents can estimate approximately the necessary expenses of their sons here; and it is particularly requested that they will not furnish them with money beyond what is necessary for their ordinary expenses. Those who are supplied with much spending money, or who are allowed to make debts, usually accomplish but little in their studies, and are liable to form habits which require their removal from the school.

Term Bills. — Tuition is at the rate of $60.00 a year; the term-bills, including Gymnasium fee ($1.00), are as follows: for the Fall Term, $25.00; for the Winter Term, $19.00; for the Spring Term, $19.00. Students occupying rooms in Commons, whether alone or with a room-mate, will add the fee, $3.00 a Term, to each bill. A laboratory fee of $5.00 is required of students in Chemistry. Tuition is to be paid at the commencement of the term. Checks should be drawn in favor of Edward Taylor, Treasurer.

Board and Lodgings. — The expense of board, furnished room, and ordinary service in private boarding-houses is $6.00, $7.00, $8.00, $9.00 per week, and upwards.

Engagements for room and for room and board in private families are made with the understanding that they are to continue from the time they are made to the end of the Academic year.

In the price of board, whether in private families or in Commons, fuel, lights, and washing are not included, except by special arrangement.

No scholar may enjoy the privileges of this institution who shall board in any family which is not licensed by the Trustees.

COMMONS. — There are sixty-four rooms in Commons for pupils, and two for teachers. Each room is designed for two persons, and has two single bedrooms connected with it. The rooms are furnished only with tables, and bedsteads for single beds. Bedding is usually brought from home. Stoves and other articles necessary to furnish a room can be obtained here at reasonable prices. Plans of the rooms and other information may be had by addressing Mr. F. M. Hill. The accommodations provided in Commons are very plain, and intended expressly for those who wish to make their expenses small. *Persons who use tobacco must not apply for rooms in Commons.*

Students who room in Commons are required to board in Commons. Students rooming, without board, in private houses can board in Commons if there are vacant places. The price of table board is at present $3.00 a week. Engagements are to be made with Maj. William Marland, and payments should be made to him, or by check to his order.

Students who board in Commons are required to pay $15.00 at the opening of the first term, and the remainder Nov. 1; $10.00 Jan. 3, and the remainder for the second term Feb. 15; $10.00 April 4, and the remainder for the third term May 26.

House opens Sept. 10, 1889, and closes Tuesday evening, June 24, 1890.

SCHOLARSHIPS.

The *Clarke Scholarship* of Twelve Hundred Dollars was established in 1870, in memory of the late Mrs. Jane Aiken Clarke. It yields at present $80.00 a year.

The *Jonathan Taylor Scholarship* of One Thousand Dollars was established in 1878 by Mr. Edward Taylor, in memory of his father. It yields at present $60.00 a year.

The *Peter Smith Byers Scholarship* of Five Hundred Dollars was established in 1878 by Mr. John Byers, of New York, in memory of his brother, a graduate, and a teacher in the Academy, and yields an income at present of $35.00 a year.

The *French Scholarship* of One Thousand Dollars was established June 9, 1879, by the late Mr. Hiram W. French of Andover, and yields $60.00 a year.

The *Class of* 1878 *Scholarship*, a gift from the Classical class of 1878, amounts to $475.00, and is accumulating.

The *Caroline Parker Taylor Scholarship* of One Thousand Dollars was founded in 1880 by Mrs. Alpheus Hardy, of Boston, "in memory of the late Mrs. Taylor, and in recognition of her devotion to the cause of Christian education and the aid she rendered her husband, Dr. Samuel H. Taylor, in his long and efficient service as Principal of the Academy." It yields at present $60.00 a year.

The *Gerard Sumner Wiggin Scholarship* of One Thousand Dollars was established in 1882 by a bequest from the late Lady Elizabeth Sumner Buckley-Mathew Fleming, of London, in memory of her son, a former member of the school. It yields at present $60.00 a year.

BENEFICIARY AID.

The *Farrar Fund*, a legacy of Twenty-two Thousand Dollars from the late Treasurer, Samuel Farrar, Esq., yields an income exceeding $1,400 per annum.

The *Students' Educational Fund*, begun with a gift of $100 from the Senior Class of 1854, and enlarged by their efforts to $1,800, now amounts to $5,700 and yields an income of over $300 per annum. The Trustees desire to increase this fund to at least $25,000, in order to meet the opportunity for assisting worthy young men, ambitious to secure a liberal education.

Deserving students who intend to complete the classical course preparatory for college can be admitted free of tuition, on furnishing to the Treasurer and Principal satisfactory evidence that their circumstances are such as to render the aid necessary. Students not able to pay the full price of tuition can have such a reduction as may be considered necessary, on similar evidence. Students of the English Department are not admitted free of tuition, but in special cases they may receive aid from the beneficiary funds.

Besides remitting the tuition fees, the Academy has been able to aid deserving young men during the past year from the income of the above

funds, in sums varying from $10.00 to $50.00, according to their circumstances. Conduct and scholarship, even more than pecuniary necessities, are considered in the distribution.

ENDOWMENTS.

In addition to the early endowments by Hon. Samuel Phillips, Dr. John Phillips, Hon. Wm. Phillips, Lieut.-Gov. Samuel Phillips, His Honor Wm. Phillips, and others, and the Scholarships, Prizes, and Charity-funds mentioned elsewhere, gifts for buildings and for general purposes amounting to $27,000 have been more recently received (1878–84), and endowments have been made as follows: George Peabody Foundation for Natural Sciences (1866), $25,000; Samuel H. Taylor Fund (1871), $3,700; John C. Phillips Foundation for the Latin Department (1878), $25,000; Peter Smith Byers Foundation for the Principalship (1879), $40,000; Alden Educational Fund (1881), $5,000; Stone Educational Fund (1884), $25,000.

LIBRARIES.

The "Samuel H. Taylor Memorial Library" contains about 2,500 books, including the valuable classical library of the late Principal, Dr. Taylor, which was presented to the school (1876) by his sister, Mrs. Horace Fairbanks, of St. Johnsbury, Vt. The "Associate Library" belongs jointly to the Philomathean Society and the Society of Inquiry, and contains 800 volumes. The Library of the Theological Seminary, and the Memorial Hall Public Library, aggregating 55,000 volumes, are accessible for consultation daily.

SOCIETIES.

The Philomathean Society (1825) holds weekly meetings for literary improvement. The Society of Inquiry (1833) is a religious society, and holds devotional meetings Sunday and Wednesday evenings in Society Hall. The Young Men's Christian Association (1888) holds meetings Saturday evenings.

CHEMICAL LABORATORY.

A new building, the east wing of a proposed science building, has been erected for the chemical department at an expense of $8,000. The main floor is forty feet by thirty. In addition to the equipment for the instructor, tables are fitted up with apparatus and re-agents for thirty-two pupils in experimental chemistry. The incidental advantages secured in this building are ample space, freedom from dampness, abundant light, the means of speedy and complete ventilation, good drainage, a minimum of absorbing surfaces, and a minimum of fire risk.

GYMNASIUM.

The gymnasium is a substantial brick building, forty feet by ninety, two stories high, and furnished with apparatus for both the light and the heavy gymnastics.

LOCATION, ETC.

Andover is a town of five thousand inhabitants, situated on the Boston and Maine Railroad, twenty miles north of Boston. It is the seat of the Andover Theological Seminary, Prof. E. C. Smyth, D.D., President of the Faculty, and of the Abbot Academy for young ladies, Miss Philena McKeen, Principal. For convenience, the following additional addresses are given: Moses Foster, cashier of The Andover National Bank; William G. Goldsmith, Postmaster (domestic and foreign money orders); Charles L. Carter, proprietor of the "Mansion House," the local hotel connected with the institutions; Warren F. Draper, the "Andover Publications"; John N. Cole, the Andover Book-store, and treasurer of the Andover Press; Arthur Bliss, the Western Union Telegraph Company; Abraham Marland, station agent, Boston and Maine Railroad.

ENGLISH PRIZES.

SUSTAINED BY THE HARVARD-ANDOVER CLUB.

The Harvard-Andover Club offers two prizes, of $15 and $10 each, for excellence in elementary Rhetoric and English composition.

The competition is open to all members of the Senior and Middle classes of both departments of the Academy. The prizes will be awarded upon the basis of two examinations.

The first examination will be on elementary Rhetoric, and will consist in part of questions on the subject-matter of A. S. Hill's Rhetoric, pages 1–72 and 79–84, and in part of the correction of specimens of bad English, like those set on the entrance-papers for admission to Harvard College.

The second examination will require a short English composition upon one of several subjects announced at the time of the examination.

The compositions will be judged largely with reference to their simplicity, directness, and freedom from elementary errors.

JUNIOR CLASS, 26.

[1] English only.

CIRCULAR OF INFORMATION.

CLASSICAL DEPARTMENT.

In order to pursue profitably the studies of the Junior Year students should be well grounded in Modern Geography, the elements of English Grammar, and Arithmetic through Decimal Fractions. A much greater proficiency in English studies is found to be of great advantage, and for want of it students not infrequently fail to maintain their place in the class, or fail of promotion at the end of the year.

The completion of the Course of Study prepares the student for any college. *It is of the greatest advantage that the student enter the school at the beginning of the course.* Candidates for advanced standing are examined in the studies already passed by the class they propose to enter. Emphasis is laid on the requirements in Latin Grammar and Composition, and Greek Grammar and Composition ; past experience shows that the candidate is liable to over-estimate his attainments in these subjects General information must not be regarded as an equivalent for technical scholarship; nor mere translation for systematic drill in the forms and usages of language.

A variety of optional and extra studies is offered, especially in the Senior Year, to meet the wants of students who are fitting for definite college requirements, or are to enter advanced divisions in classics, mathematics, natural sciences, or modern languages at the colleges; and also to provide for ambitious students who may wish to broaden their preparation. It is not practicable to show all the possible combinations in the " Course of Study " below. The classes in Physics and Chemistry are afforded ample facilities for practical work in the laboratories. Special students, as such, are not provided for, nor does the Academy undertake to fit boys for college in a minimum of time.

ENGLISH DEPARTMENT.

The object of this department, established in 1830, is to afford a substantial course of study, chiefly on the basis of Mathematics and the Natural Sciences, with History, Latin, Modern Languages, and Literature.

The preparation required for admission is indicated by the "Course of Study" below. The studies of the Junior year are not pursued as elementary studies. Candidates for advanced standing are examined in the studies already passed by the class they propose to enter.

The study of Latin is required of all pupils in the Junior Middle Year. The course is so arranged that students may take preliminary examinations for the best scientific schools at the end of this year.

In the Middle Year French or German is required and Latin is elective. Those who complete successfully this year are prepared for admission to the Sheffield Scientific School of Yale College, the Massachusetts Institute of Technology, and other scientific schools and colleges.

The studies of the Senior Year are designed for pupils who desire a broader preparation for scientific or professional schools, and more particularly for those who do not intend to go to a higher institution. Students who complete the course receive a diploma.

For illustrating the principles of Natural Philosophy the school is provided with excellent apparatus, which is used in lectures given in connection with the text-books. There is also a well equipped Physical Laboratory, for experimental work. An appropriation of $300 is made each year to procure the latest and best instruments.

The Academy is provided with a full set of instruments for the course in practical surveying, consisting of a solar transit, surveyor's compasses, levels, and other appliances.

The Chemical Laboratory is fitted with tables and apparatus for practical work in General Chemistry and Qualitative Analysis.

The Newton Cabinet contains several thousand specimens of rocks, minerals, fossils, insects, shells, and other illustrations in Natural History, and a small collection of coins, stone implements, and other valuable antiquities.

COURSE OF STUDY.

JUNIOR (FOURTH) CLASS.

	CLASSICAL.	ENGLISH.
FIRST TERM.	LATIN: Lessons (Comstock). MATHEMATICS: Arithmetic (Bradbury's Eaton); to Interest. ENGLISH: Grammar and Analysis.	MATHEMATICS: Arithmetic (Bradbury's Eaton); to Interest. ENGLISH: Grammar, Reading and Spelling. GEOGRAPHY: Political (Maury).
SECOND TERM.	LATIN: Lessons, completed. Grammar (Allen and Greenough). Caesar, Gallic War, Book I, 13 chapters. Exercises in writing. MATHEMATICS: Arithmetic; to Ratio and Proportion. 	LATIN: Caesar, Gallic War, Books II, III, IV. Exercises in writing.	MATHEMATICS: Arithmetic, including metric system, completed.
THIRD TERM.	MATHEMATICS: Arithmetic, including the metric system, completed.	ENGLISH: Parsing and Analysis. Reading and Spelling.
	ENGLISH: Reading. Study of words. Dictations.	PHYSIOLOGY: Tracy. Use of Charts and Skeleton.

NOTE. — The Algebra of the Junior Middle Year may be substituted for the Arithmetic of the Junior year by those pupils who show themselves qualified to pass successfully a strict examination in Arithmetic, including the Metric System. The amount of Latin done in the Junior year must be estimated on the basis of six recitations a week, full hour periods, and involving a large amount of drill as well as instruction.

JUNIOR MIDDLE (THIRD) CLASS.

	CLASSICAL.	ENGLISH.
FIRST TERM.	LATIN: Caesar, Gallic War, Books I, V, VI. Reading at Sight. Exercises in writing. Roman History (outlines). GREEK: Grammar (Hadley), and Lessons (Coy). MATHEMATICS: Algebra; through Simple Equations. ENGLISH: Readings; College requirements. Compositions.	MATHEMATICS: Algebra; through Simple Equations. ENGLISH: Rhetoric. Declamations and Essays. THIRD TERM.

LATIN:

Virgil, Aeneid, through Book II. Composition (Jones, to Exercise XXI). Written Translations.

GREEK:

Grammar and Lessons. Xenophon (Coy's First Reader, 22 pages).

MATHEMATICS:

Algebra; Proportion, Progressions, Undetermined Coefficients, Binomial Theorem.

ENGLISH:

Readings. Exercises in Composition.

NOTE. — The course of Physics in the Middle Year of the English Department, the requirement set for admission to Harvard College, is open to those pupils of the Junior Middle Year who have completed the Algebra of this year, and who pass successfully a strict examination.

MATHEMATICS:

Plane Geometry.

ENGLISH:

English Authors. Declamations and Essays.

BOTANY:

Wood's Botanist and Florist.

LATIN:

Lessons. Caesar, Gallic War, Book I (13 chapters), Book II (20 chapters).

SCIENCE:

Mechanical Drawing.

NOTE — An opportunity is given by many scientific schools to pass a preliminary examination in a part of the subjects required for admission. The above course of study is arranged with this in view, and pupils are urged to pass this examination as a preparation also for the Middle Year.

TERMS OF ADMISSION, ETC.

Students who wish to enter the Academy are required to furnish testimonials that they sustain a good moral character. Certificates of standing in their last schools are also required.

No age is prescribed for admission. Boys fourteen years of age usually possess sufficient maturity for the responsibilities of school-life here. The school is not a suitable one for boys who are idle, wayward, or averse to study, or for such as require the supervision of a teacher and the routine of a school-room to enforce industry and fidelity.

Boys whose influence is felt to be injurious to good scholarship or good morals will not be allowed to remain in the school.

The School Year begins with the Fall Term; but students may enter at any time, if qualified to join some class already formed. While they remain they will be enrolled in one of the regular classes, and will pursue the prescribed course; exceptions are only provisional.

Entrance Examinations. — Candidates for advanced standing will be examined on Wednesday, Sept. 10, in Latin at 10.30 A.M., in room 7; in Mathematics at 1.30 P.M., in Room 2; in Greek at 3 P.M., in room 9. Candidates for the English Department will be examined, for the Junior Middle Class at 10.30 A.M., in room 5; for the Middle Class at 1.30 P.M., in room 6; for the Senior Class at 3 P.M., in room 5.

Examinations for advanced standing are also held on the first day of the second and third terms at 10 A.M.

A fee of one dollar is charged for examinations held at other times than those above stated.

The school day begins with prayers at 8.10. On Monday morning the several classes meet their respective teachers at the same hour for Bible study. The students attend church regularly on Sunday at the Chapel erected for the joint use of the Theological Seminary and the Academy, unless excused to attend elsewhere. The churches in town are Congregational, Protestant Episcopal, Baptist, and Roman Catholic.

Examinations, conducted in writing, are held in each study once, at least, in each term; and at the end of the first and second terms in the studies of the term; and near the close of the year with reference to promotion and graduation. Promotion and graduation are secured only by those who give satisfactory evidence of the requisite proficiency.

Reports of the standing and deportment of the students are sent to parents or guardians at the close of each term; and at other times when occasion requires.

EXPENSES.

Parents can estimate approximately the necessary expenses of their sons here; and it is particularly requested that they will not furnish them with money beyond what is necessary for their ordinary expenses. Those who are supplied with much spending money, or who are allowed to make debts, usually accomplish but little in their studies, and are liable to form habits which require their removal from the school.

Term Bills. — The term-bills, including Gymnasium fee are as follows: for the Fall Term, $25.00; for the Winter Term, $19.00; for the Spring Term, $19.00. Students occupying rooms in Commons, whether alone or with a room-mate, will add $3.00 a term, to each bill. A laboratory fee of $5.00 a term is required of students in Chemistry. Tuition is to be paid at the commencement of the term. Checks should be drawn in favor of the Trustees of Phillips Academy.

Board and Lodgings. — The expense of board, furnished room, and ordinary service in private boarding-houses is $6.00, $7.00, $8.00, $9.00 per week, and upwards.

Engagements for room and for room and board in private families are made with the understanding that they are to continue from the time they are made to the end of the Academic year.

In the price of board, whether in private families or in Commons, fuel, lights, and washing are not included, except by special arrangement.

No scholar may enjoy the privileges of this institution who shall board in any family which is not licensed by the Trustees.

COMMONS. — There are sixty-four rooms in Commons for pupils, and two for teachers. Each room is designed for two persons, and has two single bedrooms connected with it. The rooms are furnished only with tables, and bedsteads for single beds. Bedding is usually brought from home. Stoves and other articles necessary to furnish a room can be obtained here at reasonable prices. Plans of the rooms and other information may be had by addressing Mr. F. M. Hill. The accommodations provided in Commons are very plain, and intended expressly for those who wish to make their expenses small. *Persons who use tobacco must not apply for rooms in Commons.*

Students who room in Commons are required to board in Commons. Students rooming, without board, in private houses can board in Commons if there are vacant places. The price of table board by the term is at present $3.00 a week, payable monthly in advance. Engagements are to be made with Maj. William Marland, and payments should be made to him, or by check to his order. The rate for the short vacations, and for fractions of a term is $4 00 a week.

House opens Sept. 8, 1890, and closes Tuesday evening, June 23, 1891.

SCHOLARSHIPS.

The *Clarke Scholarship* of Twelve Hundred Dollars was established in 1870, in memory of the late Mrs. Jane Aiken Clarke. It yields at present $60.00 a year.

The *Jonathan Taylor Scholarship* of One Thousand Dollars was established in 1878 by Mr. Edward Taylor, in memory of his father. It yields at present $60.00 a year.

The *Peter Smith Byers Scholarship* of Five Hundred Dollars was established in 1878 by Mr. John Byers, of New York, in memory of his brother, a graduate, and a teacher in the Academy, and yields an income at present of $30.00 a year.

The *French Scholarship* of One Thousand Dollars was established June 9, 1879, by the late Mr. Hiram W. French of Andover, and yields $60.00 a year.

The *Class of* 1878 *Scholarship*, a gift from the Classical class of 1878, amounts to $500.00, and is accumulating.

The *Caroline Parker Taylor Scholarship* of One Thousand Dollars was founded in 1880 by Mrs. Alpheus Hardy, of Boston, "in memory of the late Mrs. Taylor, and in recognition of her devotion to the cause of Christian education and the aid she rendered her husband, Dr. Samuel H. Taylor, in his long and efficient service as Principal of the Academy." It yields at present $60.00 a year.

The *Gerard Sumner Wiggin Scholarship* of One Thousand Dollars was established in 1882 by a bequest from the late Lady Elizabeth Sumner Buckley-Mathew Fleming, of London, in memory of her son, a former member of the school. It yields at present $60.00 a year.

The *Charles L. Flint Scholarships* were founded in 1890 by a bequest of Five Thousand Dollars from the Hon. Charles L. Flint of Boston. The income, by the terms of the gift, is given in aid of students in the Classical Department.

The *Emma Lane Smyth Scholarship* of One Thousand Dollars was established in 1890 by Ex-Gov. Frederick Smyth of Manchester, N.H., in memory of Mrs. Smyth. By request of the founder, the income is used for the assistance of students in the English Department.

BENEFICIARY AID.

The *Farrar Fund*, a legacy of Twenty-two Thousand Dollars from the late Treasurer, Samuel Farrar, Esq., yields an income exceeding $1,400 per annum.

The *Students' Educational Fund*, begun with a gift of $100 from the Senior Class of 1854, and enlarged by their efforts to $1,800, now amounts to $5,700 and yields an income of over $300 per annum. The Trustees desire to increase this fund to at least $25,000, in order to meet the opportunity for assisting worthy young men, ambitious to secure a liberal education.

Deserving students who intend to complete the classical course preparatory for college can be admitted free of tuition, on furnishing to the Treasurer and Principal satisfactory evidence that their circumstances

are such as to render the aid necessary. Students not able to pay the full price of tuition can have such a reduction as may be considered necessary, on similar evidence. Students of the English Department are not admitted free of tuition, but in special cases they may receive aid from the beneficiary funds.

Besides remitting the tuition fees, the Academy has been able to aid deserving young men during the past year from the income of the above funds, in sums varying from $10.00 to $50.00, according to their circumstances. Conduct and scholarship, even more than pecuniary necessities, are considered in the distribution.

ENDOWMENTS.

In addition to the early endowments by Hon. Samuel Phillips, Dr. John Phillips, Hon. Wm. Phillips, Lieut.-Gov. Samuel Phillips, His Honor Wm. Phillips, and others, and the Scholarships, Prizes, and Charity-funds mentioned elsewhere, gifts for buildings and for general purposes amounting to $27,000 have been more recently received (1878–84), and endowments have been made as follows: George Peabody Foundation for Natural Sciences (1866), $25,000; Samuel H. Taylor Fund (1871), $3,700; John C. Phillips Foundation for the Latin Department (1878), $25,000; Peter Smith Byers Foundation for the Principalship (1879), $40,000; Alden Educational Fund (1881), $5,000; Stone Educational Fund (1884), $25,000; W. F. Draper Fund (1887), $2,500; Charles L. Flint Fund (1890), $5,000.

LIBRARIES.

The "Samuel H. Taylor Memorial Library" contains about 2,500 books, including the valuable classical library of the late Principal, Dr. Taylor, which was presented to the school (1876) by his sister, Mrs. Horace Fairbanks, of St. Johnsbury, Vt. The "Associate Library" belongs jointly to the Philomathean Society and the Society of Inquiry, and contains 800 volumes. The Library of the Theological Seminary, and the Memorial Hall Public Library, aggregating 55,000 volumes, are accessible for consultation daily.

SOCIETIES.

The Philomathean Society (1825) holds weekly meetings for literary improvement. The Society of Inquiry (1833) is a religious society, and holds devotional meetings Sunday and Wednesday evenings in Society Hall. The Young Men's Christian Association (1888) holds meetings Saturday evenings.

CHEMICAL LABORATORY.

A new building, the east wing of a proposed science building, has been erected for the chemical department at an expense of $8,000. The main floor is forty feet by thirty. In addition to the equipment for the instructor, tables are fitted up with apparatus and re-agents for thirty-two pupils in experimental chemistry. The incidental advantages secured in this building are ample space, freedom from dampness, abundant light, the means of speedy and complete ventilation, good drainage, a minimum of absorbing surfaces, and a minimum of fire risk.

GYMNASIUM.

The gymnasium is a substantial brick building, forty feet by ninety, two stories high, and furnished with apparatus for both the light and the heavy gymnastics.

LOCATION, ETC.

Andover is a town of five thousand inhabitants, situated on the Boston and Maine Railroad, twenty miles north of Boston. It is the seat of the Andover Theological Seminary, Prof. E. C. Smyth, D.D., President of the Faculty, and of the Abbot Academy for young ladies, Miss Philena McKeen, Principal. For convenience, the following additional addresses are given: Moses Foster, cashier of The Andover National Bank; Abraham Marland, Postmaster (domestic and foreign money orders); Charles L. Carter, proprietor of the "Mansion House," the local hotel connected with the institutions; Warren F. Draper, the "Andover Publications"; John N. Cole, the Andover Book-store, and treasurer of the Andover Press.

ENGLISH PRIZES.

SUSTAINED BY THE HARVARD–ANDOVER CLUB.

First Competition, June 1889.

First Prize,	$15.00,	G. N. Henning, *Washington, D.C.*
Second Prize,	10.00,	G. R. Noyes, *North Andover.*

The Harvard-Andover Club offers two prizes, of $15 and $10, for excellence in elementary Rhetoric and English composition.

The competition is open to all members of the Senior and Middle classes of both departments of the Academy. The prizes will be awarded upon the basis of two examinations.

The first examination will be on elementary Rhetoric, and will consist in part of questions on the subject-matter of A. S. Hill's Rhetoric, pages 1–62 and 79–84, and in part of the correction of specimens of bad English, like those set on the entrance-papers for admission to Harvard College.

The second examination will require a short English composition upon one of several subjects announced at the time of the examination.

The compositions will be judged largely with reference to their simplicity, directness, and freedom from elementary errors.

CIRCULAR OF INFORMATION

TERMS OF ADMISSION.

Students who wish to enter the Academy are required to furnish testimonials that they sustain a good moral character. Certificates of standing in their last schools are also required.

No age is prescribed for admission. Boys fourteen years of age usually possess sufficient maturity for the responsibilities of school-life here. The school is not a suitable one for boys who are idle, wayward, or averse to study, or for such as require the supervision of a teacher and the routine of a school-room to enforce industry and fidelity.

Time of Admission. — The School Year begins with the Fall Term; but students may enter at any time, if qualified to join some class already formed. While they remain they will be enrolled in one of the regular classes, and will pursue the prescribed course; exceptions are only provisional.

I. CLASSICAL DEPARTMENT.

Candidates for the Junior Class will be examined in Modern Geography, the elements of English Grammar, and Arithmetic.

The amount of information required in English Grammar is indicated by the first 107 pages of Swinton's New English Grammar and Composition; in Arithmetic candidates must be prepared to the subject of Percentage.

Candidates for advanced standing are examined in the studies already passed by the class they propose to enter. Examinations are held on the first day of the second and third terms. A fee of one dollar is charged for examinations held at other times than those stated.

Entrance Examinations. — Wednesday, September 9, 1891.

Candidates for the Junior Class will be examined in Geography and English Grammar, at 10.30 A.M., in room 9; in Arithmetic, at 1.30 P.M., in room 8; candidates for advanced standing in the Classical Department will be examined in Latin, at 10.30 A.M., in room 7; in Mathematics, at 1.30 P.M., in room 2; in Greek, at 3 P.M., in room 9.

The completion of the Course of Study prepares the student for any college. *It is of the greatest advantage that the student enter the school at the beginning of the course.* Emphasis is laid on the requirements in Latin Grammar and Composition, and Greek Grammar and Composition; experience shows that the candidate is liable to over-estimate his attainments in these subjects. General information must not be regarded as an equivalent for technical scholarship; nor mere translation for systematic drill in the forms and usages of language.

A variety of optional and extra studies is offered, especially in the Senior Year, to meet the wants of students who are fitting for definite college requirements, or are to enter advanced divisions in classics, mathematics, natural sciences, or modern languages at the colleges; and also to provide for ambitious students who may wish to broaden their preparation. It is not practicable to show all the possible combinations in the "Course of Study" below. The classes in Physics and Chemistry are afforded ample facilities for practical work in the laboratories. Special students are not provided for, nor does the Academy undertake to fit boys for college in a minimum of time.

II. ENGLISH DEPARTMENT.

The studies of the Junior Year are not pursued as elementary studies. Candidates for advanced standing are examined in the studies already passed by the class they propose to enter. Examinations are held on the first day of the second and third terms.

The amount of information required in English Grammar is indicated by the first 107 pages of Swinton's New English Grammar and Composition; in Arithmetic candidates must be prepared to the subject of Percentage.

Entrance Examinations.— Wednesday, September 9, 1891.

Candidates for the Junior Class will be examined in English Grammar, at 10.30 A.M., in room 9; in Arithmetic, at 1.30 P.M. in room 8. Candidates for advanced standing in the English Department will be examined in Algebra, at 11.30 A.M., in room 3; in Geometry and Trigonometry, at 2.30 P.M., in room 3; in Latin, at 3.30 P.M., in room 5.

The object of this department, established in 1830, is to afford a substantial course of study, chiefly on the basis of Mathematics and the Natural Sciences, with History, Latin, Modern Languages, and Literature.

The Course of Study is designed to furnish a broad and thorough preparation for the Sheffield Scientific School of Yale University, the Massachusetts Institute of Technology, and other scientific schools and colleges.

The study of Latin is required of all pupils in the Junior Middle Year. In the Middle Year French or German is required and Latin is elective. The course is so arranged that students may take preliminary examinations for the best scientific schools at the end of this year.

Students who complete the course receive a diploma.

For illustrating the principles of Natural Philosophy the school is provided with excellent apparatus, which is used in lectures given in connection with the text-books. There is also a well equipped Physical Laboratory, for experimental work. An appropriation of $300 is made each year to procure the latest and best instruments.

The Academy is provided with a full set of instruments for the course in practical surveying, consisting of a solar transit, surveyor's compasses, levels, and other appliances.

The Chemical Laboratory is fitted with tables and apparatus for practical work in General Chemistry and Qualitative Analysis.

The Newton Cabinet contains several thousand specimens of rocks, minerals, fossils, insects, shells, and other illustrations in Natural History, and a small collection of coins, stone implements, and other valuable antiquities.

GENERAL REMARKS.

Discipline. — The policy of the school is sufficiently indicated by statements under Terms of Admission.

Boys whose influence is felt to be injurious to good scholarship or good morals will not be allowed to remain in the school.

Scholarship and Attendance. — Scholarship is marked on a scale of 100. From 90 to 100, inclusive, is indicated by A; 80 to 89 by B; 70 to 79 by C; 60 to 69 by D; below 60 by E.

When a student is unable to secure or maintain in each study a grade of 60 per cent, *his connection with the class becomes merely Probational*, and may be terminated at any time, at the discretion of the Faculty.

A warning for 5 unexcused absences is sent to parent or guardian. When 10 are recorded, the student is suspended from the school, or dismissed. At the close of each term 2 absences are cancelled.

Religious Exercises. — The school day begins with prayers at 8.10. On Monday morning the several classes meet their respective teachers at the same hour for Bible study. The students attend church regularly on Sunday at the Chapel erected for the joint use of the Theological Seminary and the Academy, unless excused to attend elsewhere. The churches in town are Congregational, Protestant Episcopal, Baptist, and Roman Catholic.

Examinations and Promotions. — Examinations, conducted in writing, are held in each study once, at least, in each term; and at the end of the first and second terms in the studies of the term; and near the close of the year with reference to promotion and graduation. Promotion and graduation are secured only by those who give satisfactory evidence of the requisite proficiency.

Reports of the standing and deportment of the students are sent to parents or guardians at the close of each term; and at other times when occasion requires.

EXPENSES.

Parents can estimate approximately the necessary expenses of their sons here; and it is particularly requested that they will not furnish them with money beyond what is necessary for their ordinary expenses. Those who are supplied with much spending money, or who are allowed to make debts, usually accomplish but little in their studies, and are liable to form habits which require their removal from the school.

Term Bills. — The term-bills, beginning Sept. 1891, will be as follows: for the Fall Term, $30.00; for the Winter Term, $25.00; for the Spring Term, $20.00. Students occupying rooms in Commons, whether alone or with a room-mate, will add $3.00 a term to each bill. A laboratory fee of $5.00 a term is required of students in Chemistry. Tuition is to be paid at the commencement of the term. Checks should be drawn in favor of the Trustees of Phillips Academy.

Board and Lodgings. — The expense of board, furnished room, and ordinary service in private boarding-houses is $6.00, $7.00, $8.00, $9.00 per week, and upwards.

Engagements for room, and for room and board, in private families are made with the understanding that they are to continue from the time they are made to the end of the Academic year.

In the price of board, whether in private families or in Commons, fuel, lights, and washing are not included, except by special arrangement.

No student may enjoy the privileges of this institution who shall board in any family which is not licensed by the Trustees.

Commons. — There are sixty-four rooms in Commons for pupils, and two for teachers. Each room is designed for two persons, and has two single bedrooms connected with it. The rooms are supplied only with tables, and bedsteads for single beds. Bedding is usually brought from home. Stoves and other articles necessary to furnish a room can be obtained here at reasonable prices. Plans of the rooms and other information may be had by addressing Mr. F. M. Hill. The accommodations provided in Commons are very plain, and intended expressly for those

who wish to make their expenses small. *Persons who use tobacco must not apply for rooms in Commons.*

Students who room in Commons are required to board in Commons. Students rooming, without board, in private houses can board in Commons if there are vacant places. The price of table board by the term is at present $3.00 a week, payable monthly in advance. Engagements are to be made with Maj. William Marland, and payments should be made to him, or by check to his order. The rate for the short vacations, and for fractions of a term is $4.00 a week.

House opens September 7, 1891, and closes Tuesday evening, June 22, 1892.

SCHOLARSHIPS.

The *Clarke Scholarship* of Twelve Hundred Dollars was established in 1870, in memory of the late Mrs. Jane Aiken Clarke. It yields at present $60.00 a year.

The *Jonathan Taylor Scholarship* of One Thousand Dollars was established in 1878 by Mr. Edward Taylor, in memory of his father. It yields at present $60.00 a year.

The *Peter Smith Byers Scholarship* of Five Hundred Dollars was established in 1878 by Mr. John Byers, of New York, in memory of his brother, a graduate, and a teacher in the Academy, and yields an income at present of $30.00 a year.

The *French Scholarship* of One Thousand Dollars was established June 9, 1879, by the late Mr. Hiram W. French of Andover, and yields $60.00 a year.

The *Class of* 1878 *Scholarship*, a gift from the Classical class of 1878, amounts to $500.00, and is accumulating.

The *Caroline Parker Taylor Scholarship* of One Thousand Dollars was founded in 1880 by Mrs. Alpheus Hardy, of Boston, "in memory of the late Mrs. Taylor, and in recognition of her devotion to the cause of Christian education and the aid she rendered her husband, Dr. Samuel H. Taylor, in his long and efficient service as Principal of the Academy." It yields at present $60.00 a year.

The *Gerard Sumner Wiggin Scholarship* of One Thousand Dollars was established in 1882 by a bequest from the late Lady Elizabeth Sumner Buckley-Mathew Fleming, of London, in memory of her son, a former member of the school. It yields at present $60.00 a year.

The *Charles L. Flint Scholarships* were founded in 1890 by a bequest of Five Thousand Dollars from the Hon. Charles L. Flint of Boston. The income, by the terms of the gift, is given in aid of students in the Classical Department.

The *Emma Lane Smyth Scholarship* of One Thousand Dollars was established in 1890 by Ex-Gov. Frederick Smyth of Manchester, N.H., in memory of Mrs. Smyth. By request of the founder, the income is used for the assistance of students in the English Department.

The *James and Persis Taylor Scholarship* of One Thousand Dollars, was founded in memory of the late Dr. Samuel H. Taylor, on his birthday, October 3, 1890, by his sister, Mrs. Mary E. Fairbanks, of St. Johnsbury, Vt., and was named in honor of their father and mother.

The *Henry P. Haven Scholarship* was founded in 1890 by the gift of One Thousand Dollars, "the income to be applied to the aid of worthy members of Phillips Academy."

BENEFICIARY AID.

The *Farrar Fund*, a legacy from the late Treasurer, Samuel Farrar, Esq., amounting, with additions from income, to Twenty-two Thousand Dollars, yields an income of $1,400 per annum.

The *Students' Educational Fund*, begun with a gift of $100 from the Senior Class of 1854, and enlarged by their efforts to $1,800, now amounts to $5,700 and yields an income of over $300 per annum. The Trustees desire to increase this fund to at least $25,000, in order to meet the opportunity for assisting worthy young men, ambitious to secure a liberal education.

Deserving students who intend to complete the classical course preparatory for college can be admitted free of tuition, on furnishing to the Treasurer and Principal satisfactory evidence that their circumstances

are such as to render the aid necessary. Students not able to pay the full price of tuition can have such a reduction as may be considered necessary, on similar evidence. Students of the English Department are not admitted free of tuition, but in special cases they may receive aid from the beneficiary funds.

Besides remitting the tuition fees, the Academy has been able to aid deserving young men during the past year from the income of the above funds, in sums varying from $10.00 to $50.00, according to their circumstances. Conduct and scholarship, even more than pecuniary necessities, are considered in the distribution.

ENDOWMENTS.

In addition to the early endowments by Hon. Samuel Phillips, Dr. John Phillips, Hon. Wm. Phillips, Lieut.-Gov. Samuel Phillips, His Honor Wm. Phillips, and others, and the Scholarships, Prizes, and Charity-funds mentioned elsewhere, gifts for buildings and for general purposes amounting to $27,000 have been more recently received (1878–84), and endowments have been made as follows: George Peabody Foundation for Natural Sciences (1866), $25,000; Samuel H. Taylor Fund (1871), $3,700; John C. Phillips Foundation for the Latin Department (1878), $25,000; Peter Smith Byers Foundation for the Principalship (1879), $40,000; Alden Educational Fund (1881), $5,000; Stone Educational Fund (1884), $25,000; W. F. Draper Fund (1887), $2,500; Charles L. Flint Fund (1890), $5,000.

LIBRARIES.

The "Samuel H. Taylor Memorial Library" contains about 2,500 books, including the valuable classical library of the late Principal, Dr. Taylor, which was presented to the school (1876) by his sister, Mrs. Horace Fairbanks, of St. Johnsbury, Vt. The "Associate Library" belongs jointly to the Philomathean Society and the Society of Inquiry, and contains 800 volumes. The Library of the Theological Seminary, and the Memorial Hall Public Library, aggregating 55,000 volumes, are accessible for consultation daily.

SOCIETIES.

The Philomathean Society (1825) holds weekly meetings for literary improvement. The Society of Inquiry (1833) is a religious society, and holds devotional meetings Sunday and Wednesday evenings in Society Hall. The Young Men's Christian Association (1888) holds meetings Saturday evenings.

CHEMICAL LABORATORY.

A new building, the east wing of a proposed science building, has been erected for the chemical department at an expense of $8,000. The main floor is forty feet by thirty. In addition to the equipment for the instructor, tables are fitted up with apparatus and re-agents for thirty-two pupils in experimental chemistry. The incidental advantages secured in this building are ample space, freedom from dampness, abundant light, the means of speedy and complete ventilation, good drainage, a minimum of absorbing surfaces, and a minimum of fire risk.

GYMNASIUM.

The gymnasium is a substantial brick building, forty feet by ninety, two stories high, and furnished with apparatus for both the light and the heavy gymnastics.

LOCATION, ETC.

Andover is a town of six thousand inhabitants, situated on the Boston and Maine Railroad, twenty miles north of Boston. It is the seat of the Andover Theological Seminary, Prof. E. C. Smyth, D.D., President of the Faculty, and of the Abbot Academy for young ladies, Miss Philena McKeen, Principal. For convenience, the following additional addresses are given: Moses Foster, cashier of The Andover National Bank; Abraham, Marland Postmaster (domestic and foreign money orders); William H. Goodwin, Station Agent, Boston and Maine Railroad; E. P. Hitchcock, proprietor of the "Mansion House," the local hotel connected with the institutions; Warren F. Draper, the "Andover Publications"; John N. Cole, the Andover Book-store, and treasurer of the Andover Press.

COURSE OF STUDY.

JUNIOR (FOURTH) CLASS.

CLASSICAL.

FIRST TERM.	LATIN. — Lessons (Comstock). MATHEMATICS. — Arithmetic (Bradbury's Eaton); to Ratio and Proportion. ENGLISH. — Grammar and Analysis.
SECOND TERM.	LATIN. — Lessons, completed. Grammar (Allen and Greenough). Caesar, Gallic War, Book I, 13 chapters. Exercises in writing. MATHEMATICS. — Arithmetic, including the Metric System, completed. ENGLISH. — Reading. Study of words. Dictations.
THIRD TERM.	LATIN. — Caesar, Gallic War, Books II, III, IV. Exercises in writing. MATHEMATICS. — Algebra, to Simple Equations. ENGLISH. — Reading. Study of words. Dictations. NOTE. — The Algebra of the Junior Middle Year may be substituted for the Arithmetic of the Junior year by those pupils who show themselves qualified to pass successfully a strict examination in Arithmetic, including the Metric System. The amount of Latin done in the Junior year must be estimated on the basis of six recitations a week, full hour periods, and involving a large amount of drill as well as instruction.

CIRCULAR OF INFORMATION

TERMS OF ADMISSION.

Students who wish to enter the Academy are required to furnish testimonials that they sustain a good moral character. Certificates of standing in their last schools are also required.

No age is prescribed for admission. Boys fourteen years of age usually possess sufficient maturity for the responsibilities of school-life here. The school is not a suitable one for boys who are idle, wayward, or averse to study, or for such as require the supervision of a teacher and the routine of a school-room to enforce industry and fidelity.

Time of Admission. — The School Year begins with the Fall Term; but students may enter at any time, if qualified to join some class already formed. While they remain they will be enrolled in one of the regular classes, and will pursue the prescribed course; exceptions are only provisional.

Entrance examinations for the coming year will be held on Wednesday, September 14, 1892.

I. CLASSICAL DEPARTMENT.

Candidates for the Junior Class will be examined in Modern Geography, the elements of English Grammar, and Arithmetic; also in Reading and Spelling. Preparation is required in the first thirty-five pages of "Common Words Difficult to Spell." (Sherman and Co, Philadelphia.)

The amount of information required in English Grammar is indicated by the first 107 pages of Swinton's New English Grammar and Composition; in Arithmetic candidates must be prepared to the subject of Percentage.

Candidates for advanced standing are examined in the studies already passed by the class they propose to enter. Examinations are held on the first day of the second and third terms. A fee of one dollar is charged for examinations held at other times than those stated.

The completion of the Course of Study prepares the student for any college. *It is of the greatest advantage that the student enter the school at the beginning of the course.* Emphasis is laid on the requirements in Latin Grammar and Composition, and Greek Grammar and Composition; experience shows that the candidate is liable to over-estimate his attainments in these subjects. General information must not be regarded as an equivalent for technical scholarship; nor mere translation for systematic drill in the forms and usages of language.

A variety of optional and extra studies is offered, especially in the Senior Year, to meet the wants of students who are fitting for definite college requirements, or are to enter advanced divisions in classics, mathematics, natural sciences, or modern languages at the colleges; and also to provide for ambitious students who may wish to broaden their preparation. It is not practicable to show all the possible combinations in the "Course of Study" below. The classes in Physics and Chemistry are afforded ample facilities for practical work in the laboratories. Special students are not provided for, nor does the Academy undertake to fit boys for college in a minimum of time.

II. ENGLISH DEPARTMENT.

Candidates for the Junior Class will be examined in the Elements of English Grammar, Reading and Spelling. The requirement in these subjects is the same as for the Classical Department, shown on page 9.

The studies of the Junior Year are not pursued as elementary studies. Candidates for advanced standing are examined in the studies already passed by the class they propose to enter. Examinations are held on the first day of the second and third terms.

The object of this department, established in 1830, is to afford a substantial course of study, chiefly on the basis of Mathematics and the Natural Sciences, with History, Latin, Modern Languages, and Literature.

The Course of Study is designed to furnish a broad and thorough preparation for the Sheffield Scientific School of Yale University, the Massachusetts Institute of Technology, and other scientific schools and colleges.

The study of Latin is required of all pupils in the Junior Middle Year. In the Middle Year French or German is required and Latin is elective. The course is so arranged that students may take preliminary examinations for the best scientific schools at the end of this year.

Students who complete the course receive a diploma.

For illustrating the principles of Natural Philosophy the school is provided with excellent apparatus, which is used in lectures given in connection with the text-books. There is also a well equipped Physical Laboratory, for experimental work. An appropriation of $300 is made each year to procure the latest and best instruments.

The Academy is provided with a full set of instruments for the course in practical surveying, consisting of a solar transit, surveyor's compasses, levels, and other appliances.

The Science Building, just completed, furnishes ample accommodations for the departments of Physics and Chemistry. The building contains a lecture room, a draughting room, a Physical and a Chemical Laboratory, thoroughly equipped for individual work.

The Newton Cabinet contains several thousand specimens of rocks, minerals, fossils, insects, shells, and other illustrations in Natural History, and a small collection of coins, stone implements, and other valuable antiquities.

GENERAL REMARKS.

Discipline. — The policy of the school is sufficiently indicated by statements under Terms of Admission.

Boys whose influence is felt to be injurious to good scholarship or good morals will not be allowed to remain in the school.

Scholarship and Attendance. — Scholarship is marked on a scale of 100. From 90 to 100, inclusive, is indicated by A; 80 to 89 by B; 70 to 79 by C; 60 to 69 by D; below 60 by E.

When a student is unable to secure or maintain in each study a grade of 60 per cent, *his connection with the class becomes merely Probational*, and may be terminated at any time, at the discretion of the Faculty.

A warning for 5 unexcused absences is sent to parent or guardian. When 10 are recorded, the student is suspended from the school, or dismissed. At the close of each term 2 absences are cancelled.

Religious Exercises. — The school day begins with prayers at 8.10. On Monday morning the several classes meet their respective teachers at the same hour for Bible study. The students attend church regularly on Sunday at the Chapel erected for the joint use of the Theological Seminary and the Academy, unless excused to attend elsewhere. The churches in town are Congregational, Protestant Episcopal, Baptist, and Roman Catholic.

Examinations and Promotions. — Examinations, conducted in writing, are held in each study once, at least, in each term; and at the end of the first and second terms in the studies of the term; and near the close of the year with reference to promotion and graduation. Promotion and graduation are secured only by those who give satisfactory evidence of the requisite proficiency.

Reports of the standing and deportment of the students are sent to parents or guardians at the close of each term; and at other times when occasion requires.

EXPENSES.

Parents can estimate approximately the necessary expenses of their sons here; and it is particularly requested that they will not furnish them with money beyond what is necessary for their ordinary expenses. Those who are supplied with much spending money, or who are allowed to make debts, usually accomplish but little in their studies, and are liable to form habits which require their removal from the school.

Term Bills. — The term-bills are as follows: for the Fall Term, $30.00; for the Winter Term, $25.00; for the Spring Term, $20.00. Students occupying rooms in Commons, whether alone or with a room-mate, will add $3.00 a term to each bill. A laboratory fee of $5.00 a term is required of students in Chemistry. Tuition is to be paid at the commencement of the term. Checks should be drawn in favor of the Trustees of Phillips Academy.

Board and Lodgings. — The expense of board, furnished room, and ordinary service in private boarding-houses is $6.00, $7.00, $8.00, $9.00 per week, and upwards.

Engagements for room, and for room and board, in private families are made with the understanding that they are to continue from the time they are made to the end of the Academic year.

In the price of board, whether in private families or in Commons, fuel, lights, and washing are not included, except by special arrangement.

No student may enjoy the privileges of this institution who shall board in any family which is not licensed by the Trustees.

Commons. — There are sixty-four rooms in Commons for pupils, and two for teachers. Each room is designed for two persons, and has two single bedrooms connected with it. The rooms are supplied only with tables, and bedsteads for single beds. Bedding is usually brought from home. Stoves and other articles necessary to furnish a room can be obtained here at reasonable prices. Plans of the rooms and other information may be had by addressing Mr. F. M. Hill. The accommodations provided in Commons are very plain, and intended expressly for those

who wish to make their expenses small. *Persons who use tobacco must not apply for rooms in Commons.*

Students who room in Commons are required to board in Commons. Students rooming, without board, in private houses can board in Commons if there are vacant places. The price of table board by the term is at present $3.00 a week, payable monthly in advance. Engagements are to be made with Maj. William Marland, and payments should be made to him, or by check to his order. The rate for the short vacations, and for fractions of a term is $4.00 a week.

House opens September 12, 1892.

SCHOLARSHIPS.

The *Clarke Scholarship* of Twelve Hundred Dollars was established in 1870, in memory of the late Mrs. Jane Aiken Clarke. It yields at present $60.00 a year.

The *Jonathan Taylor Scholarship* of One Thousand Dollars was established in 1878 by Mr. Edward Taylor, in memory of his father. It yields at present $60.00 a year.

The *Peter Smith Byers Scholarship* of Five Hundred Dollars was established in 1878 by Mr. John Byers, of New York, in memory of his brother, a graduate, and a teacher in the Academy, and yields an income at present of $30.00 a year.

The *French Scholarship* of One Thousand Dollars was established June 9, 1879, by the late Mr. Hiram W. French of Andover, and yields $60.00 a year.

The *Class of 1878 Scholarship*, a gift from the Classical class of 1878, amounts to $500.00, and is accumulating.

The *Caroline Parker Taylor Scholarship* of One Thousand Dollars was founded in 1880 by Mrs. Alpheus Hardy, of Boston, "in memory of the late Mrs. Taylor, and in recognition of her devotion to the cause of Christian education and the aid she rendered her husband, Dr. Samuel H. Taylor, in his long and efficient service as Principal of the Academy." It yields at present $60.00 a year.

The *Gerard Sumner Wiggin Scholarship* of One Thousand Dollars was established in 1882 by a bequest from the late Lady Elizabeth Sumner Buckley-Mathew Fleming, of London, in memory of her son, a former member of the school. It yields at present $60.00 a year.

The *Charles L. Flint Scholarships* were founded in 1890 by a bequest of Five Thousand Dollars from the Hon. Charles L. Flint of Boston. The income, by the terms of the gift, is given in aid of students in the Classical Department.

The *Emma Lane Smyth Scholarship* of One Thousand Dollars was established in 1890 by Ex-Gov. Frederick Smyth of Manchester, N.H., in memory of Mrs. Smyth. By request of the founder, the income is used for the assistance of students in the English Department.

The *James and Persis Taylor Scholarship* of One Thousand Dollars, was founded in memory of the late Dr. Samuel H. Taylor, on his birthday, October 3, 1890, by his sister, Mrs. Mary E. Fairbanks, of St. Johnsbury, Vt., and was named in honor of their father and mother.

The *Henry P. Haven Scholarship* was founded in 1890 by the gift of One Thousand Dollars, "the income to be applied to the aid of worthy members of Phillips Academy."

The *Dowe Scholarship Fund* of Three Thousand Dollars was founded in 1892 by a bequest of $3,000 from Mr. Joseph Dowe, of Boston.

BENEFICIARY AID.

The *Farrar Fund*, a legacy from the late Treasurer, Samuel Farrar, Esq., amounting, with additions from income, to Twenty-two Thousand Dollars, yields an income of $1,400 per annum.

The *Students' Educational Fund*, begun with a gift of $100 from the Senior Class of 1854, and enlarged by their efforts to $1,800, now amounts to $5,700 and yields an income of over $300 per annum. The Trustees desire to increase this fund to at least $25,000, in order to meet the opportunity for assisting worthy young men, ambitious to secure a liberal education.

Deserving students who intend to complete the classical course pre-

paratory for college can be admitted free of tuition, on furnishing to the Treasurer and Principal satisfactory evidence that their circumstances are such as to render the aid necessary. Students not able to pay the full price of tuition can have such a reduction as may be considered necessary, on similar evidence. Students of the English Department are not admitted free of tuition, but in special cases they may receive aid from the beneficiary funds.

Besides remitting the tuition fees, the Academy has been able to aid deserving young men during the past year from the income of the above funds, in sums varying from $10.00 to $50.00, according to their circumstances. Conduct and scholarship, even more than pecuniary necessities, are considered in the distribution.

ENDOWMENTS.

In addition to the early endowments by Hon. Samuel Phillips, Dr. John Phillips, Hon. Wm. Phillips, Lieut.-Gov. Samuel Phillips, His Honor Wm. Phillips, and others, and the Scholarships, Prizes, and Charity-funds mentioned elsewhere, gifts for buildings and for general purposes amounting to $27,000 have been more recently received (1878–84), and endowments have been made as follows: George Peabody Foundation for Natural Sciences (1866), $25,000; Samuel H. Taylor Fund (1871), $3,700; John C. Phillips Foundation for the Latin Department (1878), $25,000; Peter Smith Byers Foundation for the Principalship (1879), $40,000; Alden Educational Fund (1881), $5,000; Stone Educational Fund (1884), $25,000; W. F. Draper Fund (1887), $2,500; Charles L. Flint Fund (1890), $5,000.

LIBRARIES.

The "Samuel H. Taylor Memorial Library" contains about 2,500 books, including the valuable classical library of the late Principal, Dr. Taylor, which was presented to the school (1876) by his sister, Mrs. Horace Fairbanks, of St. Johnsbury, Vt. The "Associate Library" belongs jointly to the Philomathean Society and the Society of Inquiry, and contains 800 volumes. The Library of the Theological Seminary, and the Memorial Hall Public Library, aggregating 55,000 volumes, are accessible for consultation daily.

SOCIETIES.

The Philomathean Society (1825) holds weekly meetings for literary improvement. The Society of Inquiry (1833) is a religious society, and holds devotional meetings Sunday and Wednesday evenings in Society Hall.

GYMNASIUM.

The gymnasium is a substantial brick building, forty feet by ninety, two stories high, and furnished with apparatus for both the light and the heavy gymnastics.

LOCATION, ETC.

Andover is a town of six thousand inhabitants, situated on the Boston and Maine Railroad, twenty miles north of Boston. It is the seat of the Andover Theological Seminary, Prof. E. C. Smyth, D.D., President of the Faculty, and of the Abbot Academy for young ladies, Miss Laura S. Watson, Principal. For convenience, the following additional addresses are given: Moses Foster, cashier of The Andover National Bank; Abraham Marland, Postmaster (domestic and foreign money orders); William H. Goodwin, Station Agent, Boston and Maine Railroad; E. P. Hitchcock, proprietor of the "Mansion House," the local hotel connected with the institutions; Warren F. Draper, the "Andover Publications"; John N. Cole, the Andover Book-store, and treasurer of the Andover Press.

COURSE OF STUDY.

JUNIOR (FOURTH) CLASS.

CLASSICAL.

FIRST TERM:

LATIN. — Lessons (Comstock). 6 hours.

MATHEMATICS. — Arithmetic (Bradbury's Eaton); to Ratio and Proportion. 6 hours.

ENGLISH. — Grammar and Analysis. 4 hours.

SECOND TERM:

LATIN. — Lessons, completed. Grammar (Allen and Greenough). Caesar, Gallic War, Book I, 13 chapters. Exercises in writing. 6 hours.

MATHEMATICS. — Arithmetic, including the Metric System, completed. 6 hours.

ENGLISH. — Reading. Study of words. Composition. 4 hours.

THIRD TERM:

LATIN. — Caesar, Gallic War, Books II, III, IV. Exercises in writing. 6 hours.

MATHEMATICS. — Algebra, to Fractions. 6 hours.

ENGLISH. — Reading. Correction. Composition. 4 hours.

NOTE. — The Algebra of the Junior Middle Year may be substituted for the Arithmetic of the Junior year by those pupils who show themselves qualified to pass successfully a strict examination in Arithmetic, including the Metric System. The amount of Latin done in the Junior year must be estimated on the basis of six recitations a week, full hour periods, and involving a large amount of drill as well as instruction.

MODERN LANGUAGES. — French or German; prose selections. 4 hours.

MATHEMATICS. — Reviews. 1 hour.

ENGLISH. — Readings. Argumentative Compositions. 1 hour.

NOTE. — An opportunity is given by an increasing number of colleges to pass a preliminary examination in a part of the subjects required for admission. This examination must take place at least a year before the final examination. Particulars may be learned from the catalogues of the respective colleges. June examinations, both preliminary and final, are held in Andover by Harvard, Yale, Amherst, and Princeton colleges.

In order to define the work of the pupil during his last year, it is expected that he will pass this preliminary examination, in case it is offered by the college of his choice.

SUPPLEMENTARY READINGS IN ENGLISH.

Examinations are given, near the close of each term, according to the following schedule:

CLASSICAL DEPARTMENT.

JUNIOR YEAR:

First Term. — Cooper's Deerslayer; Hawthorne's Wonder-Book; Dickens' Christmas Carol.

Second Term. — Swift's Gulliver's Travels; Hawthorne's Tanglewood Tales; Cowper's John Gilpin's Ride.

Third Term. — Lamb's Tales from Shakespeare; Brown's Rab and his Friends; Tennyson's Enoch Arden.

JUNIOR MIDDLE YEAR:

First Term. — Scott's Ivanhoe; Irving's Legend of Sleepy Hollow.

Second Term. — Dickens' David Copperfield; Lanier's The Boy's Froissart.

Third Term. — Longfellow's Hiawatha; Kingsley's Westward Ho!

MIDDLE YEAR:

First Term. — Dickens' Tale of Two Cities; Byron's Prisoner of Chillon; Keats' Eve of St. Agnes; De Quincey's Murder as a Fine Art.

Second Term. — Thackeray's Four Georges and Roundabout Papers; Goldsmith's Deserted Village.

Third Term. — Georg Eber's Uarda; Lamb's Essays of Elia.

SENIOR YEAR:

First Term. — George Eliot's Daniel Deronda; Milton's Comus and Lycidas.

Second Term. — Hawthorne's Scarlet Letter; Tegner's Trithiof Saga (Bayard Taylor).

Third Term. — Arnold's Discourses in America; Howells' Rise of Silas Lapham; Tennyson's Idylls of the King.

ENGLISH DEPARTMENT.

JUNIOR YEAR:

First Term. — Hawthorne's Wonder-Book; Defoe's Robinson Crusoe.

Second Term. — Swift's Gulliver's Travel's; Cowper's John Gilpin's Ride; Legend of Robin Hood.

CIRCULAR OF INFORMATION

TERMS OF ADMISSION.

Students who wish to enter the Academy are required to furnish testimonials that they sustain a good moral character. Certificates of standing in their last schools are also required.

No age is prescribed for admission. Boys fourteen years of age usually possess sufficient maturity for the responsibilities of school-life here. The school is not a suitable one for boys who are idle, wayward, or averse to study, or for such as require the supervision of a teacher and the routine of a school-room to enforce industry and fidelity.

Time of Admission. — The School Year begins with the Fall Term; but students may enter at any time, if qualified to join some class already formed. While they remain they will be enrolled in one of the regular classes, and will pursue the prescribed course; exceptions are only provisional. Candidates for advanced standing are examined in the studies already passed by the class they propose to enter.

Entrance examinations for the coming year will be held on Thursday and Friday, June 29 and 30, 1893, on Wednesday, September 13, 1893, and on the first day of the second and third terms. A fee of one dollar is charged for examinations held at other times than those stated.

I. CLASSICAL DEPARTMENT.

Candidates for the Junior Class will be examined in Modern Geography, the elements of English Grammar, and Arithmetic; also in Reading and Spelling. The amount of information required in English Grammar is indicated by the first 107 pages of Swinton's New English Grammar and Composition; in Arithmetic candidates must be prepared to the subject of Percentage.

The completion of the Course of Study prepares the student for any college. *It is of the greatest advantage that the student enter the school at the beginning of the course.* Emphasis is laid on the requirements in Latin Grammar and Composition, and Greek Grammar and Composition; experience shows that the candidate is liable to over-estimate his attainments in these subjects. General information must not be regarded as an equivalent for technical scholarship; nor mere translation for systematic drill in the forms and usages of language.

A variety of optional and extra studies is offered, especially in the Senior Year, to meet the wants of students who are fitting for definite college requirements, or are to enter advanced divisions in classics, mathematics, natural sciences, or modern languages at the colleges; and also to provide for ambitious students who may wish to broaden their preparation. It is not practicable to show all the possible combinations in the "Course of Study" below. The classes in Physics and Chemistry have excellent facilities for practical work in the laboratories. Special students are not provided for, nor does the Academy undertake to fit boys for college in a minimum of time.

II. ENGLISH DEPARTMENT.

Candidates for the Junior Class will be examined in the Elements of English Grammar, Arithmetic, Reading and Spelling. The requirement in these subjects is the same as for the Classical Department, shown on page 9.

The object of this department, established in 1830, is to afford a substantial course of study, chiefly on the basis of Mathematics and the Natural Sciences, with History, Latin, Modern Languages, and Literature.

The Course of Study is designed to furnish thorough preparation for the Sheffield Scientific School of Yale University, the Massachusetts Institute of Technology, and other scientific schools and colleges.

The study of Latin is required of all pupils in the Junior Middle Year. In the Middle Year French or German is required and Latin is elective. The course is so arranged that students may take preliminary examinations for the best scientific schools at the end of this year.

Students who complete the course are entitled to receive a diploma.

For illustrating the principles of Natural Philosophy the school is provided with excellent apparatus, which is used in lectures given in connection with the text-books. There is also a well equipped Physical Laboratory, for experimental work. An appropriation of $300 is made each year to procure the latest and best instruments.

The Academy is provided with a full set of instruments for the course in practical surveying, consisting of a solar transit, surveyor's compasses, levels, and other appliances.

The Science Building, just completed, furnishes ample accommodations for the departments of Physics and Chemistry. The building contains a lecture room, a draughting room, a Physical and a Chemical Laboratory, thoroughly equipped for individual work.

The Newton Cabinet contains several thousand specimens of rocks, minerals, fossils, insects, shells, and other illustrations in Natural History, and a small collection of coins, stone implements, and other valuable antiquities.

GENERAL REMARKS.

Discipline. — The policy of the school is sufficiently indicated by statements under Terms of Admission.

Boys whose influence is felt to be injurious to good scholarship or good morals will not be allowed to remain in the school.

Scholarship and Attendance. — Scholarship is marked on a scale of 100. From 90 to 100, inclusive, is indicated by A; 80 to 89 by B; 70 to 79 by C; 60 to 69 by D; below 60 by E.

When a student is unable to secure or maintain in each study a grade of 60 per cent, *his connection with the class becomes merely Probational*, and may be terminated at any time, at the discretion of the Faculty.

A warning for 5 unexcused absences is sent to parent or guardian. When 10 are recorded, the student is suspended from the school, or dismissed. At the close of each term 2 absences are cancelled.

Religious Exercises. — The school day begins with prayers at 8.10. On one morning of each week the several classes meet their respective teachers at the same hour for Bible study. The students attend church regularly on Sunday at the Chapel erected for the joint use of the Theological Seminary and the Academy, unless excused to attend elsewhere. The churches in town are Congregational, Protestant Episcopal, Baptist, and Roman Catholic.

Examinations and Promotions. — Examinations, conducted in writing, are held in each study once, at least, in each term; and at the end of the first and second terms in the studies of the term; and near the close of the year with reference to promotion and graduation. Promotion and graduation are secured only by those who give satisfactory evidence of the requisite proficiency.

Reports of the standing and deportment of the students are sent to parents or guardians at the close of each term; and at other times when occasion requires.

EXPENSES.

Parents can estimate approximately the necessary expenses of their sons here; and it is particularly requested that they will not furnish them with money beyond what is necessary for their ordinary expenses. Those who are supplied with much spending money, or who are allowed to make debts, usually accomplish but little in their studies, and are liable to form habits which require their removal from the school.

Term Bills. — The term-bills are as follows: for the Fall Term, $30.00; for the Winter Term, $25.00; for the Spring Term, $20.00. Students occupying rooms in Commons, whether alone or with a room-mate, will add $3.00 a term to each bill. A laboratory fee of $5.00 a term is required of students in Chemistry. Tuition is to be paid at the commencement of the term. Checks should be drawn in favor of the Trustees of Phillips Academy.

BOARD AND LODGINGS.

I. Private Houses.—About forty families in the vicinity of the Academy provide board and lodgings for students, under license from the Trustees, and no student may occupy a house not thus sanctioned by the School.

In these houses some families provide furnished rooms only; others provide rooms and board, and some of the latter furnish board for students rooming in neighboring houses.

The price of table board in Commons is $3.00, and in private families from $4.00 to $7.00 per week. The price of furnished rooms, including ordinary service, is from $3.00 to $6.00, and upwards. In the price of lodgings, lights and washing are not included, except by special arrangement.

Engagements for room, and for room and board, in private families are understood to continue to the end of the Academic year. Care should therefore be exercised in the selection of rooms. Engagements for table board, in case students lodge in other houses, may upon suitable notice be terminated at the close of any term.

II. Cottages. — By the gifts of Mr. Melville C. Day, class of 1858, Mr. Warren F. Draper, class of 1843, and of many citizens of Andover, aided by a few friends outside of Andover, four small dormitories have been built, called respectively "The Taylor," "The Andover," "The Draper," "The Bancroft." They are built of brick with granite trimmings, and careful attention has been given to the warming, ventilation, water supply, bath and toilet arrangements, and the drainage. Each building contains apartments for a resident teacher. The Taylor and the Draper (Longfellow, Alden and Harlow, architects) contain five double suites for students; the Andover (George W. Cole, architect) has five double suites and three single rooms; the Bancroft (George C. Harding, architect) has four double suites, two single suites, and one single room. Each suite has separate bedrooms, an open fireplace, ample closet room, and a storage locker in the attic. Table board for students in these dormitories may be secured in private families or in Commons at $3.00, $4.00, $5.00, $6.00, or $7.00 per week. Students who room in the Draper must board in Commons.

These accommodations for four teachers and forty-four pupils are a partial realization of a plan to replace, as fast as funds are provided for the purpose, the present Latin and English Commons with modern buildings, combining approved sanitary arrangements with comfortable and home-like rooms, as favorable as possible to the best student life. The income derived from the fees is applied first to maintenance and a small construction balance, second to certain life annuities attached to the deeds of gift, and third to the aid of deserving students who need pecuniary assistance.

Students who use tobacco in any form, occasionally or habitually, must not apply for these rooms. Applications for double suites must be signed by two persons who wish to room together. No furniture is supplied by the school. The fees, except in the case of the Draper, include the charge for heat and for the care of the rooms.

Price of rooms for 1893–94.

For a double suite in the Taylor, the Andover, the Bancroft, each student, $80.00

For a double suite in the Draper (without heat and service), each student,	24.00
For a single suite in the Bancroft,	85.00
For a single room in the Andover,	45.00
For a single room in the Bancroft.	35.00

III. Commons. — There are fifty-six rooms in Commons for pupils, and four for teachers. Each room is designed for two persons, and has two single bedrooms connected with it. The rooms are supplied only with tables, and bedsteads for single beds. Bedding is usually brought from home. Stoves and other articles necessary to furnish a room can be obtained here at reasonable prices. Plans of the rooms and other information may be had by addressing Mr. F. M. Hill. The accommodations provided in Commons are very plain, and intended expressly for those who wish to make their expenses small. *Persons who use tobacco occasionally or habitually must not apply for rooms in Commons.*

Students who room in Commons are required to board in Commons. Students rooming, without board, in private houses can board in Commons if there are vacant places. The price of table board by the term is at present $3.00 a week, payable monthly in advance. Engagements are to be made with Maj. William Marland, and payments should be made to him, or by check to his order. The rate for the short vacations, and for fractions of a term is $4.00 a week. House opens September 11, 1893

BENEFICIARY AID.

The *Farrar Fund*, a legacy from the late Treasurer, Samuel Farrar, Esq., amounts, with additions from income, to Twenty-two Thousand Dollars.

The *Students' Educational Fund*, begun with a gift of $100 from the Senior Class of 1854, and enlarged by their efforts to $1,800, now amounts to $5,700. The Trustees desire to increase this fund to at least $25,000, in order to meet the opportunity for assisting worthy young men, ambitious to secure a liberal education.

SCHOLARSHIPS.

The following scholarships have been established:

The *Clarke Scholarship* of $1200, established in 1870 in memory of Mrs. Jane Aiken Clarke.

The *Jonathan Taylor Scholarship* of $1000, established in 1878 by Edward Taylor, in memory of his father.

The *Peter Smith Byers Scholarship* of $500, established in 1878 by John Byers.

The *French Scholarship* of $1000, established in 1879 by the bequest of Hiram W. French.

The *Class of* 1878 *Scholarship* of $500, established by the Classical class of 1878.

The *Caroline Parker Taylor Scholarship* of $1000, established in 1880 by Mrs. Alpheus Hardy.

The *Gerard Sumner Wiggin Scholarship* of $1000, established in 1882 by the bequest of Lady Elizabeth Sumner Buckley-Mathew Fleming.

The *Charles L. Flint Scholarships* of $5000, established in 1890 by the bequest of Hon. Charles L. Flint.

The *Emma Lane Smyth Scholarship* of $1000, established in 1890 by Ex-Gov. Frederick Smyth.

The *James and Persis Taylor Scholarship* of $1000, established in 1890 Mrs. Mary E. Fairbanks.

The *Henry P. Haven Scholarship* of $1000, established in 1890 by the estate of Henry P. Haven.

The *Dowe Scholarship Fund* of $3000, established in 1892 by the bequest of Joseph Dowe.

Deserving students who intend to complete the classical course preparatory for college can be admitted free of tuition, on furnishing to the Principal satisfactory evidence that their circumstances are such as to render the aid necessary. Students not able to pay the full price of tuition can have such a reduction as may be required, on similar evidence. Careful preliminary correspondence should be conducted by those who desire this assistance. Students of the English Department are not ad-

mitted free of tuition, but in special cases they may receive aid from the beneficiary funds.

Besides remitting the tuition fees, the Academy has been able to aid a few young men during the past year from the income of the above funds, in sums varying from $10.00 to $50.00, according to their circumstances. Conduct and scholarship, even more than pecuniary necessities are considered in the distribution.

ENDOWMENTS.

In addition to the early endowments by Hon. Samuel Phillips, Dr. John Phillips, Hon. Wm. Phillips, Lieut.-Gov. Samuel Phillips, His Honor Wm. Phillips, and others, and the Scholarships, Prizes, and Charity-funds mentioned elsewhere, gifts for buildings and for general purposes amounting to $71,000 have been more recently received (1878–93), and endowments have been made as follows: George Peabody Foundation for Natural Sciences (1866), $25,000; Samuel H. Taylor Fund (1871), $3,700; John C. Phillips Foundation for the Latin Department (1878), $25,000; Peter Smith Byers Foundation for the Principalship (1879), $40,000; Alden Educational Fund (1881), $5,000; Stone Educational Fund (1884), $25,000; W. F. Draper Fund (1887), $2,500.

LIBRARIES.

The "Samuel H. Taylor Memorial Library" contains about 2,500 books, including the valuable classical library of the late Principal, Dr. Taylor, which was presented to the school (1876) by his sister, Mrs. Horace Fairbanks, of St. Johnsbury, Vt. The "Associate Library" belongs jointly to the Philomathean Society and the Society of Inquiry, and contains 800 volumes. The Library of the Theological Seminary, and the Memorial Hall Public Library, aggregating 60,000 volumes, are accessible for consultation daily.

SOCIETIES.

The Philomathean Society (1825) and the Forum (1892) hold weekly meetings for literary improvement. The Society of Inquiry (1833) is a

religious society, and holds devotional meetings Sunday and Wednesday evenings in Society Hall.

GYMNASIUM.

The gymnasium is a substantial brick building, forty feet by ninety, two stories high, and furnished with apparatus for both the light and the heavy gymnastics.

LOCATION, ETC.

Andover is a town of six thousand inhabitants, situated on the Western Division of the Boston and Maine Railroad, twenty miles north of Boston. It is the seat of the Andover Theological Seminary, Prof. E. C. Smyth, D.D., President of the Faculty, and of the Abbot Academy for young ladies, Miss Laura S. Watson, Principal. For convenience, the following additional addresses are given: Moses Foster, cashier of The Andover National Bank; William H. Goodwin, Station Agent, Boston and Maine Railroad; E. P. Hitchcock, proprietor of the "Mansion House," the local hotel connected with the institutions; Warren F. Draper, the "Andover Publications"; John N. Cole, the Andover Bookstore, and treasurer of the Andover Press.

CIRCULAR OF INFORMATION

Terms of Admission

Students who wish to enter the Academy are required to furnish testimonials that they sustain a good moral character. Certificates of standing in their last schools are also required.

No age is prescribed for admission. Boys fourteen years of age usually possess sufficient maturity for the responsibilities of the school-life. The school is not a suitable one for boys who are idle, wayward, or averse to study, or for such as require the supervision of a teacher and the routine of a school-room to enforce industry and fidelity.

Time of Admission

The School Year begins with the Fall Term; but students may enter at any time, if qualified to join some class already formed. While they remain they will be enrolled in one of the regular classes, and will pursue the prescribed course; exceptions are only provisional. Candidates for advanced standing are examined in the studies already passed by the class they propose to enter.

Entrance examinations for the coming year will be held on Friday and Saturday, June 22 and 23, 1894, on Wednesday and Thursday, September 12 and 13, 1894, and on the first day of the second and third terms. A fee of three dollars is charged for examinations held at other times than those stated.

Discipline The policy of the school is sufficiently indicated by statements under Terms of Admission. Boys whose influence is felt to be injurious to good scholarship or good morals will not be allowed to remain in the school.

Scholarship and Attendance Scholarship is marked on a scale of 100. From 90 to 100, inclusive, is indicated by A; 80 to 89 by B; 70 to 79 by C; 60 to 69 by D; below 60 by E.

When a student is unable to secure or maintain in each study a grade of 60 per cent, his connection with the class becomes merely probational, and may be terminated at any time, at the discretion of the Faculty.

A warning for five unexcused absences is sent, whenever possible, to parent or guardian. When ten are recorded, the student is suspended from the school or dismissed. At the close of each term two absences are cancelled.

Religious Exercises The school day begins with prayers at ten minutes before eight o'clock. The students attend church on Sunday at the Chapel erected for the joint use of the Theological Seminary and the Academy. Regular members of Protestant Episcopal, Baptist, and Roman Catholic congregations may be excused to attend the churches of these denominations.

Examinations and Promotions Examinations, conducted in writing, are held in each study once, at least, in each term; at the end of the first and second terms in the studies of the term; and near the close of the year with reference to promotion and graduation. Promotion and graduation are secured only by those who give satisfactory evidence of the requisite proficiency. Reports of the standing and deportment of the students are sent to parents or guardians at the close of each term, and at other times when occasion requires. Class officers, members of the Faculty, have under their care the assignment of studies for the pupils, and conduct correspondence relating to their school life.

EXPENSES

Parents can estimate approximately the necessary expenses of their sons here; and it is particularly requested that they will not furnish them with money beyond what is necessary for their ordinary expenses. Those who are supplied with much spending money, or who are allowed to make debts, usually accomplish but little in their studies, and are liable to form habits which require their removal from the school.

Term Bills The term-bills are as follows: for the Fall Term $30.00; for the Winter Term, $25.00; for the Spring Term, $20.00. Students occupying rooms in Commons, whether alone or with a room-mate, will add $3.00 each term to the bill. A laboratory fee of $5.00 a term is required of students in Chemistry or Physics. The term-bill is due and payable at the commencement of the term. Checks should be drawn in favor of the Trustees of Phillips Academy.

BOARD AND LODGINGS

I. Private Houses About forty families in the vicinity of the Academy provide board and lodgings for students, under license from the Trustees, and no student may occupy a house not thus sanctioned by the School.

In these houses some families provide furnished rooms only; others provide rooms and board, and some of the latter furnish board for students rooming in neighboring houses.

The price of table board in Commons is $3.00, and in private families from $4.00 to $7.00 per week. The price of furnished rooms, including ordinary service, is from $3.00 to $6.00 per week and upwards. In the price of lodgings, lights and washing are not included, except by special arrangement.

Engagements for room, and for room and board, in private families are understood to continue to the end of the Academic year. Care

should therefore be exercised in the selection of rooms. Engagements for table board, in case students lodge in other houses, may upon suitable notice be terminated at the close of any term.

II. Cottages

By the gifts of Mr. Melville C. Day, class of 1858, Mr. Warren F. Draper, class of 1843, and of many citizens of Andover, aided by a few friends outside of Andover, four small dormitories have been built, called respectively, "The Taylor," "The Andover," "The Draper," and "The Bancroft." They are built of brick with granite trimmings, and careful attention has been given to the warming, ventilation, water supply, bath and toilet arrangements, and the drainage. Each building contains apartments for a resident teacher. The Taylor and the Draper (Longfellow, Alden and Harlow, architects) contain five double suites for students; the Andover (George W. Cole, architect) has five double suites and three single rooms; the Bancroft (George C. Harding, architect) has four double suites, two single suites, and one single room. Each suite has separate bedrooms, an open fireplace, ample closet room, and a storage locker in the attic. Table board for students in these dormitories may be secured in private families or in Commons at $3.00, $4.00, $5.00, $6.00, or $7.00 per week. Students who room in the Draper must board in Commons.

These accommodations for four teachers and forty-four pupils are a partial realization of a plan to replace, as fast as funds are provided for the purpose, the present Latin and English Commons with modern buildings, combining approved sanitary arrangements with comfortable and home-like rooms, as favorable as possible to the best student life. The income derived from the fees is applied first to maintenance and a small construction balance, second to certain life annuities attached to the deeds of gift, and third to the aid of deserving students who need pecuniary assistance.

Students who use tobacco in any form, occasionally or habitually, must not apply for these rooms. Applications for double suites must

be signed by two persons who wish to room together. No furniture is supplied by the school. The fees, except in the case of the Draper, include the charge for heat and for the care of the rooms.

PRICE OF ROOMS FOR 1894–5.

For a double suite in the Taylor, the Andover, the Bancroft, each student,	$80.00
For a double suite in the Draper (without heat and service), each student,	24.00
For a single suite in the Bancroft,	85.00
For a single room in the Andover,	45.00
For a single room in the Bancroft,	35.00

III. Commons

There are fifty-six rooms in Commons for pupils, and four for teachers. Each room is designed for two persons, and has two single bedrooms connected with it. The rooms are supplied only with tables, and bedsteads for single beds. Bedding is usually brought from home. Stoves and other articles necessary to furnish a room can be obtained here at reasonable prices. Plans of the rooms and other information may be had by addressing the Registrar. The accommodations provided in Commons are very plain, and intended expressly for those who wish to make their expenses small. Persons who use tobacco occasionally or habitually must not apply for rooms in Commons.

Students who room in Commons are required to board in Commons. Students rooming, without board, in private houses can board in Commons if there are vacant places. The price of table board by the term is at present $3.00 a week, payable monthly in advance. Engagements are to be made with Maj. William Marland, and payments should be made to him, or by check to his order, The rate for the short vacations, and for fractions of a term is $4.00 a week. The house opens September 10, 1894.

ENDOWMENT

Beneficiary Aid

The *Farrar Fund*, a legacy from the late Treasurer, Samuel Farrar, Esq., amounts, with additions from income, to Twenty-two Thousand Dollars.

The *Students' Educational Fund*, begun with a gift of $100 from the Senior Class of 1854, and enlarged by their efforts to $1,800, now amounts to $5,700. The Trustees desire to increase this fund to at least $25,000, in order to meet the opportunity for assisting worthy young men, ambitious to secure a liberal education.

Scholarships

The following scholarships have been established:

The *Clarke Scholarship* of $1200, established in 1870 in memory of Mrs. Jane Aiken Clarke.

The *Jonathan Taylor Scholarship* of $1000, established in 1878 by the late Edward Taylor, in memory of his father.

The *Peter Smith Byers Scholarship* of $500, established in 1878 by the late John Byers.

The *French Scholarship* of $1000, established in 1879 by the bequest of Hiram W. French.

The *Class of* 1878 *Scholarship* of $500, established by the Classical class of 1878.

The *Caroline Parker Taylor Scholarship* of $1000, established in 1880 by Mrs. Alpheus Hardy.

The *Gerard Sumner Wiggin Scholarship* of $1000, established in 1882 by the bequest of Lady Elizabeth Sumner Buckley-Mathew Fleming.

The *Charles L. Flint Scholarships* of $5000, established in 1890 by the bequest of Hon. Charles L. Flint.

The *Emma Lane Smyth Scholarship* of $1000, established in 1890 by Ex-Gov. Frederick Smyth.

The *James and Persis Taylor Scholarship* of $1000, established in 1890 by Mrs. Mary E. Fairbanks.

The *Henry P. Haven Scholarship* of $1000, established in 1890 by the estate of Henry P. Haven.

The *Dowe Scholarship Fund* of $3000, established in 1892 by the bequest of Joseph Dowe.

The *John Cornell Scholarship Fund* of $5,000, established in 1894 by the bequest of the late John Cornell.

A limited number of deserving students who intend to complete the classical course preparatory for college can be admitted free of tuition, on furnishing to the Principal satisfactory evidence that their circumstances are such as to render the aid necessary. Students not able to pay the full price of tuition can have such a reduction as may be required, on similar evidence. Careful preliminary correspondence should be conducted by those who desire this assistance. Students of the Scientific Department are not admitted free of tuition, but in special cases they may receive aid from the beneficiary funds.

Besides remitting the tuition fees, the Academy has been able to aid a few young men during the past year from the income of the above funds, in sums varying from $10.00 to $50.00, according to their circumstances. Conduct and scholarship, even more than pecuniary necessities, are considered in the distribution.

Endowment

In addition to the early endownments by Hon. Samuel Phillips, Dr. John Phillips, Hon. Wm. Phillips, Lieut.-Gov. Samuel Phillips, His Honor Wm. Phillips, and others, and the Scholarship Prizes, and Charity-funds mentioned elsewhere, gifts for buildings and for general purposes amounting to $71,000 have been more recently received (1878–94), and endowments have been made as follows: George Peabody Foundation for Natural Sciences (1866), $25,000; Samuel H. Taylor Fund (1871), $3,700; John C. Phillips Foundation for the Latin Department (1878), $25,000; Peter Smith Byers Foundation for the Principalship (1879), $40,000; Alden Educational Fund (1881), $5,000; Stone Educational Fund (1884), $25,000; W. F. Draper Fund (1887), $2,500.

Libraries The "Samuel H. Taylor Memorial Library" contains about 2,500 books, including the valuable classical library of the late Principal, Dr. Taylor, which was presented to the school (1876) by his sister, Mrs. Horace Fairbanks, of St. Johnsbury, Vt. The "Associate Library" belongs jointly to the Philomathean Society and the Society of Inquiry, and contains 800 volumes. The Library of the Theological Seminary, and the Memorial Hall Public Library, aggregating 60,000 volumes, are accessible for consultation daily.

Societies The Philomathean Society (1825) and the Forum (1892) hold weekly meetings for literary improvement. The Society of Inquiry (1833) is a religious society, and holds devotional meetings Sunday and Wednesday evenings in Society Hall.

Gymnasium The gymnasium is a substantial brick building, forty feet by ninety, two stories high, and furnished with apparatus for both the light and the heavy gymnastics.

Location, etc. Andover is a town of six thousand inhabitants, situated on the Western Division of the Boston and Maine Railroad, twenty miles north of Boston. It is the seat of the Andover Theological Seminary, Prof. E. C. Smyth, D.D., President of the Faculty, and of the Abbot Academy for young ladies, Miss Laura S. Watson, Principal. For convenience, the following additional addresses are given: Moses Foster, cashier of the Andover National Bank; John H. Kimball, Station Agent, Boston and Maine Railroad; E. P. Hitchcock, proprietor of the "Mansion House," the local hotel connected with the institutions; Warren F. Draper, the "Andover Publications"; John N. Cole, the Andover Bookstore, and treasurer of the Andover Press.

CLASSICAL COURSE

CLASS IV.

JUNIOR.

FIRST TERM:

LATIN. — Lessons (Comstock). 6 hours.

MATHEMATICS. — Algebra, begun. 4 hours. Elementary Geometry. 2 hours.

ENGLISH. — Grammar and Analysis. 4 hours.

SECOND TERM:

LATIN. — Lessons, completed. Grammar (Allen and Greenough). Cæsar, Gallic War, Book I, 13 chapters. Exercises in writing. 6 hours.

MATHEMATICS. — Algebra, continued. 4 hours. Elementary Geometry. 2 hours.

ENGLISH. — Reading. Study of words. Composition. 4 hours.

THIRD TERM:

LATIN. — Cæsar, Gallic War, Books II, III, IV. Exercises in writing. 6 hours.

MATHEMATICS.—Algebra, completed. 4 hours. Elementary Geometry. 2 hours.

ENGLISH. — Reading. Correction. Composition. 4 hours.

NOTE. — The amount of Latin reading done in the Junior year must be estimated on the basis of six recitations a week, full hour periods, and involving a large amount of drill as well as instruction. The course in Elementary Geometry includes rule and compass practice and constant use of the Metric System. The construction and measurement of simple Geometrical figures are emphasized rather than the theory of demonstration.

CLASS III.

Junior Middle.

FIRST TERM:

Latin. — Cæsar, Gallic War, Books I, V, VI. Reading at sight. Composition (Daniell, Part I). 6 hours.

Greek. — White's Beginner's Book. 4 hours.

Modern Languages. — French or German. 4 hours.

English. — Reading; College requirements. Compositions. 2 hours.

SECOND TERM:

Latin. — Ovid, selections. Virgil, Æneid begun. Prosody. Composition (Daniell). 6 hours.

Greek. — White's Beginner's Book. 4 hours.

Modern Languages. — French or German. 4 hours.

English. — Readings. Punctuation. 2 hours.

THIRD TERM:

Latin. — Virgil, Æneid, through Book II. Composition (Daniell, through Section 100). Written Translations. 6 hours.

Greek. — White's Beginner's Book. Xenophon, Anabasis, Book I, Chaps. I–V. 4 hours.

Modern Languages. — French or German. 4 hours.

English. — Readings. Exercises in Composition. 2 hours.

CLASS II.

Middle.

FIRST TERM:

Latin. — Virgil, Æneid, Books III, IV, V. Reading at sight. Composition. 5 hours.

Greek. — Xenophon, Anabasis, Book I, Chaps. VI–X, Book II. Composition. 5 hours.

Modern Languages. — French or German. 1 hour.

History. — Greek History. 2 hours.

Mathematics. — Algebra. 2 hours.

English. — Readings. Narrative and Descriptive Composition. 2 hours.

Note. — Jones's "Exercises in Latin Composition" and Woodruff's "Greek Composition" represent but an outline of the course for the year. Much additional work is given in both subjects.

SECOND TERM:

Latin. — Virgil, Æneid, Books VI, VII, VIII. Written Translations. 5 hours.

Greek. — Xenophon, Anabasis, Books III, IV. Composition. 5 hours.

Modern Languages. — French or German: prose selections. 1 hour.

History. — Roman History. 2 hours.

Mathematics. — Algebra. 2 hours.

English. — Readings. Narrative and Descriptive Composition. 2 hours.

THIRD TERM:

Latin. — Virgil, Æneid, and Cæsar, Gallic War, reviewed. 5 hours.

Greek. — Hellenica, Selections. Composition. Reviews. 5 hours.

Modern Languages. — French or German; prose selections. 1 hour.

History. — Roman History. 2 hours.

Mathematics. — Algebra. 2 hours.

English. — Readings. Argumentative Compositions. 2 hours.

Note. — An opportunity is given by an increasing number of colleges to pass a preliminary examination in a part of the subjects required for admission. June examinations, both preliminary and final, are held in Andover by Harvard, Yale, and Princeton colleges.

In order to define the work of the pupil in his last year, it is expected that he will pass this preliminary examination.

CLASS I.

Senior.

FIRST TERM:

Latin. — Virgil, Æneid, at sight. Cicero, selected orations. Composition. Reading at sight. Roman Antiquities. 4 hours.

Greek. — Homer, 1200 verses. Composition. 4 hours.

Natural Science. — Physics. 4 hours, *or*

Modern Languages. — French or German, Class III, or Class A. 4 hours.

English. — Reading in College Requirements. Extempore Composition. 1 hour.

SECOND TERM:

Latin. — Div. I, Ovid, selections. Div. II, Livy, selections. Composition. 4 hours.

Greek. — Homer, 1800 verses. Antiquities (Mahaffy). Composition. 4 hours.

Mathematics. — Plane Geometry. 4 hours.

Natural Science. — Physics. 4 hours, *or*

Modern Languages. — French or German, Class III, or Class A. 4 hours.

English. — Reading in College Requirements. Extempore Composition. 1 hour.

THIRD TERM:

Latin. — Cicero, selected orations; Essays. Composition. Reviews. 4 hours.

Greek. — Homer, 2000 verses. Literature (Jebb). Reviews. Composition. 4 hours.

Mathematics. — Plane Geometry. Reviews. 4 hours.

Natural Science. — Physics. 4 hours, *or*

Modern Languages. — French or German, Class III, or Class A. 4 hours.

English. — Essays. 1 hour.

II. SCIENTIFIC DEPARTMENT

Candidates for the Junior Class will be examined in the Elements of English Grammar, Arithmetic, Reading, and Spelling. The requirement in English Grammar is the same as for the Classical Department, shown on page 18, and in Arithmetic the candidate must be prepared to the subject of Percentage.

The object of this department, established in 1830, is to afford a substantial course of study, chiefly on the basis of Mathematics and the Natural Sciences, with History, Latin, Modern Languages, and Literature.

The Course of Study is designed to furnish thorough preparation for the Sheffield Scientific School of Yale University, the Massachusetts Institute of Technology, and other scientific schools and colleges.

Students who complete the course are entitled to receive a diploma.

For illustrating the principles of Natural Philosophy the school is provided with excellent apparatus, which is used in lectures given in connection with the text-books. There is also a well equipped Physical Laboratory, for experimental work. An appropriation of $300 is made each year to procure the latest and best instruments.

The Academy is provided with a full set of instruments for the course in practical surveying, consisting of a solar transit, surveyor's compasses, levels, and other appliances.

The Science Building, furnishes ample accommodations for the departments of Physics and Chemistry. The building contains a lecture room, a draughting room, a Physical and a Chemical Laboratory, thoroughly equipped for individual work.

The Newton Cabinet contains several thousand specimens of rocks, minerals, fossils, insects, shells, and other illustrations of Natural History, and a small collection of coins, stone implements, and other valuable antiquities.

SCIENTIFIC COURSE

CLASS D.

JUNIOR.

FIRST TERM:

MATHEMATICS. — Arithmetic (Bradbury's Eaton); including the Metric System, to Ratio and Proportion. 4 hours. Elementary Geometry, 2 hours.

CIRCULAR OF INFORMATION

Terms of Admission Students who wish to enter the Academy are required to furnish testimonials that they sustain a good moral character. Certificates of standing in their last schools are also required.

No age is prescribed for admission. Boys fourteen years of age usually possess sufficient maturity for the responsibilities of the school life. The school is not a suitable one for boys who are idle, wayward, or averse to study, or for such as require the supervision of a teacher and the routine of a school-room to enforce industry and fidelity.

Time of Admission The School Year begins with the Fall Term, and students should enter the Academy promptly upon the first day of the year; students may enter at any time, if qualified to join some class already formed. While they remain they will be enrolled in one of the regular classes, and will pursue the prescribed course; exceptions are only provisional. Candidates for advanced standing are examined in the studies already passed by the class they propose to enter.

Entrance Examinations Examinations will be held on Friday and Saturday June 21 and 22, 1895, on Wednesday and Thursday, September 11 and 12, 1895, and on the first day of the second and third terms. A fee of three dollars is charged for examinations held at other times than those stated. The schedule of examinations given on page 16 will indicate in detail the requirements for admission to the several classes. Candidates for admission should if possible present themselves for the June entrance examinations.

Religious Exercises The school day begins with prayers at ten minutes before eight o'clock. The students attend church on Sunday at the Chapel erected for the joint use of the Theological Seminary and the Academy. Regular members of Prot-

estant Episcopal, Baptist, or Roman Catholic congregations may be excused to attend the churches of these denominations.

Examinations and Promotions

Examinations, conducted in writing, are held in each study once, at least, in each term; at the end of the first and second terms in the studies of the term; and near the close of the year with reference to promotion and graduation. Promotion and graduation are secured only by those who give satisfactory evidence of the requisite proficiency. Reports of the standing and deportment of the students are sent to parents or guardians at the close of each term, and at other times when occasion requires. Class officers, members of the Faculty, have under their care the assignment of studies for the pupils and conduct correspondence relating to their school life.

EXPENSES

Parents can estimate approximately the necessary expenses of their sons here; and it is particularly requested that they do not furnish money beyond what is necessary for ordinary expenses. Pupils who are supplied with much spending money, or who are allowed to make debts, usually accomplish but little in their studies, and are liable to form habits which require their removal from the school.

Term Bills

The term-bills are as follows: for the Fall Term, $30.00; for the Winter Term, $25.00; for the Spring Term, $20.00. A laboratory fee of $5.00 a term is required of students in Chemistry or Physics. A graduation fee of $7.00 provides for the cost of diploma, membership in the Alumni Association, and the expense in part of the commencement dinner. The term-bill is due and payable at the commencement of the term. Checks should be drawn in favor of the Trustees of Phillips Academy.

BOARD AND LODGINGS

I. Private Houses

About forty families in the vicinity of the Academy under license from the Trustees provide board and lodgings for students, and no student may occupy a house not thus sanctioned by the School.

In these houses some families provide furnished rooms only; others provide rooms and board, and some of the latter furnish board for students rooming in neighboring houses.

The Price of table board in Commons is $3.00, and in private families from $4.00 to $7.00 per week. The price of furnished rooms, including ordinary service, is from $3.00 to $6.00 per week and upwards.

Engagements for room in private families continue to the end of the Academic year. Care should therefore be exercised in the selection of rooms. Engagements for table board may, on permission and suitable notice, be terminated at the close of any term.

II. Cottages

By the gifts of Mr. Melville C. Day, class of 1858, Mr. Warren F. Draper, class of 1843, and of many citizens of Andover, aided by a few friends outside of Andover, four small dormitories have been built, called respectively, "The Taylor," "The Andover," "The Draper," and "The Bancroft." They are built of brick with granite trimmings, and careful attention has been given to the warming, ventilation, water supply, bath and toilet arrangements, and the drainage. Each building contains apartments for a resident teacher. The Taylor and the Draper contain five double suites for students; the Andover has five double suites and three single rooms; the Bancroft has four double suites, two single suites, and one single room. Each suite has separate bedrooms, an open fireplace, ample closet room, and a storage locker in the attic. Table board for students in these dormitories may be secured in private families or in Commons at $3.00, $4.00, $5.00, $6.00, or $7,00 per week. Students in the Draper are regarded as rooming in Commons.

These accommodations for four teachers and forty-four pupils are a partial realization of a plan to replace, as fast as funds are provided for the purpose, the present Latin and English Commons with modern buildings, combining approved sanitary arrangements with comfortable and homelike rooms, as favorable as possible to the best student life. The income derived from the fees is applied first to maintenance and a small construction balance, second to certain life annuities attached to the deeds of gift, and third to the aid of deserving students who need pecuniary assistance.

Students who use tobacco in any form, occasionally or habitually, must not apply for these rooms. Applications for double suites must be signed by two persons who wish to room together. No furniture is supplied by the school. The fees, except in the case of the Draper, include the charge for heat and for the care of the rooms.

PRICE OF ROOMS FOR 1895–96.

For a double suite in the Taylor, the Andover, the Bancroft, each student,	$80.00
For a double suite in the Draper (without heat and service), each student,	24.00
For a single suite in the Bancroft,	100.00
For a single room in the Andover,	45.00
For a single room in the Bancroft,	35.00

III. Commons

There are fifty-six rooms in Commons for pupils, and four for teachers. Each room is designed for two persons and has two single bedrooms connected with it. The price of rooms is $3.00 per term for each student. The rooms are supplied only with tables, and bedsteads for single beds. Bedding is usually brought from home. Stoves and other articles necessary to furnish a room can be obtained here at reasonable prices. Plans of the rooms and other information may be had by addressing the Registrar. The accommodations provided in Commons are very plain, and intended expressly for those who wish to make their expenses small. Persons who use tobacco, occasionally or habitually, must not apply for rooms in Commons.

Persons who room in Commons are required to board in Commons. Students rooming, without board, in private houses, can board in Commons if there are vacant places. The price of table board by the term is at present $3.00 a week, payable monthly in advance. The rate for the short vacations, and for fractions of a term, is $4.00 a week. The house opens September 9, 1895.

ENDOWMENT

Beneficiary Aid

The *Farrar Fund*, a legacy from the late Treasurer, Samuel Farrar, Esq., amounts, with additions from income, to Twenty-two Thousand Dollars.

The *Students' Educational Fund*, begun with a gift of $100 from the Senior Class of 1854, and enlarged by their efforts to $1,800, now amounts to $5,700. The Trustees desire to increase this fund to at least $25,000, in order to meet the opportunity for assisting worthy young men, ambitious to secure a liberal education.

Scholarships

The following scholarships have been established :

The *Clarke Scholarship* of $1200, established in 1870 in memory of Mrs Jane Aiken Clarke.

The *Jonathan Taylor Scholarship* of $1000, established in 1878 by the late Edward Taylor, in memory of his father.

The *Peter Smith Byers Scholarship* of $500 established in 1878 by the late John Byers.

The *French Scholarship* of $1000, established in 1879 by the bequest of Hiram W. French.

The *Class of 1878 Scholarship* of $500, established by the Classical class of 1878.

The *Caroline Parker Taylor Scholarship* of $1000, established in 1880 by Mrs. Alpheus Hardy.

The *Gerard Sumner Wiggin Scholarship* of $1000, established in 1882 by the bequest of Lady Elizabeth Sumner Buckley–Mathew Fleming.

The *Charles L. Flint Scholarships* of $5000, established in 1890 by the bequest of Hon. Charles L. Flint.

The *Emma Lane Smyth Scholarship* of $1000, established in 1890 by Ex-Gov. Frederick Smyth.

The *James and Persis Taylor Scholarship* of $1000, established in 1890 by Mrs. Mary E. Fairbanks.

The *Henry P. Haven Scholarship* of $1000, established in 1890 by the estate of Henry P. Haven.

The *Dowe Scholarship Fund* of $3000, established in 1892 by the bequest of John Dowe.

The *John Cornell Scholarship Fund* of $5000, established in 1894 by the bequest of the late John Cornell.

A limited number of deserving students who intend to complete the classical course preparatory for college can be admitted free of tuition, on furnishing to the Principal satisfactory evidence that their circumstances are such as to render the aid necessary. Students not able to pay the full price of tuition can have such a reduction as may be required, on similar evidence. Careful preliminary correspondence should be conducted by those who desire this assistance. Students of the Scientific Department are not admitted free of tuition, but in special cases they may receive aid from the beneficiary funds.

Besides remitting the tuition fees, the Academy has been able to aid a few young men during the past year from the income of the above funds, in sums varying from $10.00 to $50.00, according to their circumstances. Conduct and scholarship, as well as pecuniary necessities, are considered in the distribution.

Endowment

In addition to the early endowments by Hon. Samuel Phillips, Dr. John Phillips. Hon. Wm. Phillips, Lieut.-Gov. Samuel Phillips, His Honor Wm. Phillips, and others, and the Scholarship Prizes, and Charity-funds mentioned elsewhere, gifts for buildings and for general purposes amounting to $71,000 have been more recently received (1878-95), and endowments have been made as follows: George Peabody Foundation for Natural Sciences (1866), $25.000; Samuel H. Taylor Fund (1871), $3,700; John C. Phillips Foundation of the Latin Department (1878), $25,000; Peter Smith

Byers Foundation for the Principalship (1879), $40,000; Alden Educational Fund (1881), $5,000; Stone Educational Fund (1884), $25,000; W. F. Draper Fund (1887), $2,500.

Libraries The "Samuel H. Taylor Memorial Library" contains about 2,500 books, including the valuable classical library of the late Principal, Dr. Taylor, which was presented to the school (1876) by his sister, Mrs. Horace Fairbanks of St. Johnbury, Vt. The "Associate Library" belongs jointly to the Philomathean Society and the Society of Inquiry, and contains 800 volumes. There are small special libraries in English, Classics, History, and Natural Science. The Library of the Theological Seminary, and the Memorial Hall Public Library, aggregating 60,000 volumes, are accessible for consultation daily.

Societies The Philomathean Society (1825) and the Forum (1892) hold weekly meetings for literary improvement. The Society of Inquiry (1833) is a religious society, and holds devotional meetings Sunday and Wednesday evenings in Society Hall.

Gymnasium The gymnasium is a substantial brick building, forty feet by ninety, two stories high, and furnished with apparatus for both the light and the heavy gymnastics.

Location, etc. Andover is a town of six thousand inhabitants, situated on the Western division of the Boston and Maine Railroad, twenty miles north of Boston. It is the seat of the Andover Theological Seminary, Prof. E. C. Smyth, D.D., President of the Faculty, and of the Abbot Academy for young ladies, Miss Laura S. Watson, Principal. For convenience the following additional addresses are given: Moses Foster, cashier of the Andover National Bank; J. W. Kimball, Station Agent, Boston and Maine Railroad; E. P. Hitchcock, proprietor of the "Mansion House," the local hotel connected with the institutions; Warren F. Draper, the "Andover Publications"; John N. Cole, the Andover Bookstore, the Townsman, and the Andover Press.

CLASSICAL DEPARTMENT

The course of study is designed to furnish adequate preparation for any college. It is decidedly advantageous for students to take the entire course in the Academy. The languages are taught with a view to the student's progressive development. In the early study emphasis is laid upon the thorough knowledge of the forms and ordinary usages of the language. Composition work is insisted upon from the beginning. Later, effort is directed toward accuracy and nicety of translation, accompanied by critical study of syntax. In the study of poetry attention is called to the differences between poetic and prose diction. In the higher classes the elements of style and of literary criticism are studied, and the student is trained to facility in reading at sight. Throughout the course he is taught to notice and to value thoughts as well as words. An especially selected library affords opportunity for students to acquire the habit of supplementary reading.

Harvard or Yale preliminary certificates, at the discretion of instructors in charge of the various departments, are accepted as equivalents for courses passed. Candidates for the Senior Class must take a college preliminary examination and obtain a certificate.

A variety of optional and extra studies is offered, especially in the Senior year to meet the wants of students who are fitting for definite college requirements, or are to enter advanced divisions in the classics, mathematics, natural sciences, or modern languages at the colleges, and also to provide for ambitious students who may wish to broaden their preparation. It is not practicable to show all the possible combinations in the course of study which follows. The classes in Physics and Chemistry have excellent facilities for practical work in the laboratories. Special students are not provided for, nor does the Academy undertake to fit boys for college in a minimum of time.

CLASSICAL COURSE

CLASS IV.

Junior.

FIRST TERM:

Latin. — Lessons (Comstock). 6 hours.

Mathematics. — Algebra, begun. 4 hours. Elementary Geometry. 2 hours.

English. — Grammar and Analysis. 4 hours.

SECOND TERM:

Latin. — Lessons completed. Grammar (Allen and Greenough). Viri Romae, selections; 25 pages. Exercises in writing. 6 hours.

Mathematics. — Algebra, continued. 4 hours. Elementary Geometry. 2 hours.

English. — Reading. Study of words. Composition. 4 hours.

THIRD TERM:

Latin. — Caesar. Gallic War, Books II, III, IV. Composition (Daniell — Part I. § 56–90.) 6 hours.

Mathematics. — Algebra, completed. 4 hours. Elementary Geometry. 2 hours.

English. — Reading. Correction. Composition. 4 hours.

Note. — The amount of Latin reading done in the Junior year must be estimated on the basis of six recitations a week, full hour periods, and involving a large amount of drill as well as instruction. The course in Elementary Geometry includes rule and compass practice and constant use of the Metric System. The construction and measurement of simple geometrical figures are emphasized rather than the theory of demonstration.

CLASS III.

Junior Middle.

FIRST TERM:

Latin. — Caesar, Gallic War, Books I and V. Nepos, selections, six lives. Reading at sight. Composition (Jones, 15 lessons.) 6 hours.

Greek. — White's Beginner's Book. 4 hours.

Modern Languages. — French or German. 4 hours.

English. — Readings. College requirements. Compositions. 2 hours.

SECOND TERM:

Latin. — Ovid, selections, 550 verses. Vergil, Æneid begun. Prosody. Composition (Jones, through lesson 35). 6 hours.

Greek. — White's Beginner's Book. 4 hours.

Modern Languages. — French or German. 4 hours.

English. — Readings. Punctuation. 2 hours.

THIRD TERM:

Latin. — Vergil, Æneid, Books I and II. Composition (Jones completed. Collar, 16 lessons.) Written Translations. 6 hours.

Greek. — White's Beginner's Book. Xenophon, Anabasis, Book I, Chaps. I–V. 4 hours.

Modern Languages. — French or German. 4 hours.

English. — Reading. Exercises in Composition. 2 hours.

CLASS II.

Middle.

FIRST TERM:

LATIN.—Vergil, Æneid, Books III, IV, V. Reading at sight. Composition (Collar, 10 lessons). 5 hours.

GREEK.—Xenophon, Anabasis, Book I, Chaps. VI–X, Book II. Composition. 5 hours.

MODERN LANGUAGES.—French or German. 1 hour.

HISTORY.—Greek History. 2 hours.

MATHEMATICS.—Algebra. 2 hours.

ENGLISH.—Readings. Narrative and Descriptive Comp. 2 hrs.

NOTE.—Woodruff's "Greek Composition" represents but an outline of the course for the year. Much additional work is given.

SECOND TERM:

LATIN.—Vergil, Æneid, Books VI, VIII, IX. Written Translations. Composition (Collar 16 lessons, or Daniell Part I. Books III, IV). 5 hours.

GREEK.—Xenophon, Anabasis, Books III, IV. Composition. 5 hrs.

MODERN LANGUAGES.—French or German; prose selections. 1 hour.

HISTORY.—Roman History. 2 hours.

MATHEMATICS.—Algebra. 2 hours.

ENGLISH.—Readings. Narrative and Descriptive Comp. 2 hrs.

THIRD TERM:

LATIN.—Vergil, Æneid; Caesar, Gallic War reviewed. Nepos, selections at sight. Composition. 5 hours.

GREEK.—Hellenica, selections. Composition. Reviews. 5 hours.

MODERN LANGUAGES.—French or German; prose selections. 1 hour.

HISTORY.—Roman History. 2 hours.

MATHEMATICS.—Algebra. 2 hours.

ENGLISH.—Readings. Argumentative Compositions. 2 hours.

NOTE.—An opportunity is given by an increasing number of colleges to pass a preliminary examination in a part of the subjects required for admission. June examinations, both preliminary and final, are held in Andover by Harvard, Yale, and Princeton colleges.

In order to define the work of the pupil in his last year, it is required that he pass one of these preliminary examinations.

CLASS I.

Senior.

FIRST TERM:

Latin. — Cicero, 6 selected orations. Composition. Reading at sight. Roman Antiquities. 4 hours.

Greek. — Homer, 1200 verses. Composition. 4 hours.

SCIENTIFIC DEPARTMENT

The object of this department, established in 1830, is to afford a substantial course of study, chiefly on the basis of Mathematics and the Natural Sciences, with History, Latin, Modern Languages, and Literature.

The Course of Study is designed to furnish thorough preparation for the Lawrence Scientific School of Harvard University, the Sheffield Scientific School of Yale University, the Massachusetts Institute of Technology, and other scientific schools and colleges.

For illustrating the principles of Natural Philosophy the school is provided with excellent apparatus, which is used in lectures given in connection with the text-books. There is also a well-equipped Physical Laboratory, for experimental work. An appropriation of $300 is made each year to procure the latest and best instruments.

The Academy is provided with a full set of instruments for the course in practical surveying, consisting of a solar transit, surveyor's compasses, levels, and other appliances.

The Science Building furnishes ample accommodations for the departments of Physics and Chemistry. The building contains a lecture room, a draughting room, a Physical and a Chemical Laboratory, thoroughly equipped for individual work.

The Newton Cabinet contains several thousand specimens of rocks, minerals, fossils, insects, shells, and other illustrations of Natural History, and a small collection of coins, stone implements, and other valuable antiquities.

SCIENTIFIC COURSE

CLASS D.

Junior.

FIRST TERM:

Mathematics. — Arithmetic, including the Metric System, reviewed and completed. 4 hours. Elementary Geometry. 2 hours.

Latin. — Lessons. 6 hours.

English. — Grammar. Reading and Spelling. 4 hours.

SECOND TERM:

Mathematics. — Algebra; to Fractions. 4 hours. Elementary Geometry. 2 hours.

Latin. — Lessons, completed. 6 hours.

English. — Grammar, continued. Reading and Spelling. 4 hours.

THIRD TERM:

Mathematics. — Algebra, to Equations. 4 hours. Elementary Geometry. 2 hours.

Latin. — Eutropius, selections. Nepos, selections. Exercises in writing Latin. 6 hours.

English. — Parsing and Analysis. Reading and Spelling. 4 hours.

CLASS C.

Junior Middle.

FIRST TERM:

Mathematics. — Algebra; continued. 4 hours.

English. — Readings. Exercises in Composition. 4 hours.

Modern Languages. — French or German. 4 hours.

Latin. — Nepos, selections. Caesar, Gallic War, begun. Composition. 4 hours.

Natural Science.—Chemistry; Non-metallic Elements. 2 hours

SECOND TERM:

Mathematics. — Algebra; continued. 4 hours.

English. — Readings. Exercises in Composition. 4 hours.

Modern Languages. — French or German. 4 hours.

Latin. — Caesar, Gallic War, continued, Composition. 4 hours.

Natural Science.— Chemistry; Non-metallic Elements. 2 hours.

THIRD TERM:

Mathematics. — Algebra, reviewed and completed. 4 hours.

English. — Reading. Rhetoric. 4 hours.

Modern Languages. — French or German. 4 hours.

Latin. — Caesar, Gallic War, continued. Composition. 4 hours.

Natural Science.—Chemistry; Non-metallic Elements. 2 hours

Note.—At least four books of the Gallic War are read during the year.

CLASS B.

Middle.

FIRST TERM:

Mathematics. — Plane Geometry, begun. 4 hours. Algebra. 2 hours.
Natural Science. — Chemistry; Metallic Elements and Elementary Qualitative Analysis. 4 hours, *or*
Latin. — Cicero, selected orations. Composition. 4 hours.
Modern Languages. — French or German, 2 hours.
History. — English History. 4 hours.
English. — Literature and Themes. 2 hours.

SECOND TERM:

Mathematics. — Plane Geometry. 4 hours. Algebra. 2 hours
Natural Science. — Chemistry; Metallic Elements and Elementary Qualitative Analysis. 4 hours, *or*
Latin. — Ovid, selections. Prosody. 4 hours.
Modern Languages. — French or German. 2 hours.
History. — English History. United States History. 4 hours.
English. — Literature and Themes. 2 hours.

THIRD TERM:

Mathematics. — Plane Geometry, completed. 4 hours. Algebra. 2 hours.
Natural Science. — Chemistry; Metallic Elements and Elementary Qualitative Analysis. 4 hours, *or*
Latin. — Ovid, selections. Composition. Caesar, Gallic War, reviewed. 4 hours.
Modern Languages. — French or German. 2 hours.
History. — United States History. 4 hours.
English. — Literature and Themes. 2 hours.

Note. — An opportunity is given by many scientific schools to pass a preliminary examination in a part of the subjects required for admission. The course of study is arranged with this in view, and pupils are required to pass this examination as a preparation also for the Senior Year. Candidates for the Sheffield Scientific School of Yale University, the John C. Green School of Science of Princeton College, and the Rensselaer Polytechnic Institute. Troy, N.Y., may be examined in Andover.

CLASS A.

SENIOR.

FIRST TERM:

MATHEMATICS. — Plane Trigonometry. 4 hours.

PHYSICS. — 4 hours, *or*

LATIN. — Vergil, Æneid 4 hours.

MODERN LANGUAGES. — Advanced French or German. 4 hours, *or*

CHEMISTRY. — Class B. 4 hours.

BOTANY. — 2 hours, *or*

HISTORY. — The Reformation. 2 hours.

ENGLISH. — English Literature. 2 hours.

DRAWING. — Mechanical. 2 hours.

SECOND TERM:

MATHEMATICS. — Solid Geometry. 4 hours.

PHYSICS. — 4 hours, *or*

LATIN. — Vergil, Æneid. 4 hours.

MODERN LANGUAGES. — Advanced French or German. 4 hours, *or*

CHEMISTRY. — Class B. 4 hours.

BOTANY. — 2 hours, *or*

HISTORY. — The French Revolution.

ENGLISH. — English Literature. 2 hours.

DRAWING. — Mechanical. 2 hours.

THIRD TERM:

MATHEMATICS. — Analytical Geometry. 4 hours.

PHYSICS. — 4 hours, *or*

LATIN. — Vergil, Æneid. Reviews. 4 hours.

MODERN LANGUAGES. — Advanced French or German. 4 hours, *or*

CHEMISTRY. — Class B. 4 hours.

BOTANY. — 2 hours, *or*

HISTORY. — Modern Europe. 2 hours.

ENGLISH. — English Literature. 2 hours.

DRAWING. — Mechanical. 2 hours.

SUPPLEMENTARY READING

Examinations will be held, at the middle and near the close of each term, upon the following books:

CLASSES IV and D.

First Term. — Cooper's Deerslayer; Hughes's Tom Brown at Rugby.

Second Term. — Lamb's Tales from Shakespeare; Howells's A Boy's Town.

Third Term. — Longfellow's Evangeline.

CLASSES III and C.

First Term. — Scott's Ivanhoe; Longfellow's Miles Standish.

Second Term. — Dickens's David Copperfield; Tennyson's Enoch Arden.

Third Term. — Lyall's Donovan.

CLASSES II and B.

First Term. — Dickens's Tale of Two Cities; Longfellow's Tales of a Wayside Inn.

Second Term. — Blackmore's Lorna Doone; Tennyson's Elaine.

Third Term. — Bulwer's Last Days of Pompeii.

CLASSES I and A.

First Term. — Thackeray's Pendennis; Arnold's Sohrab and Rustum.

Second Term. — Hawthorne's Scarlet Letter; Tennyson's Idylls of the King.

Third Term. — Crawford's Roman Singer.

Candidates for admission to the Academy are requested to fill out the following blank, giving as minute and accurate answers to the questions as possible. The items of information furnished will assist the school officers to determine the proper classification of the student. All new students will take the entrance examinations in subjects already pursued by the class which they propose to enter. These examinations are waived only in case of subjects already passed for admission to college and then at the discretion of instructors in charge of the various departments. Candidates are required to furnish certificates of standing in their last schools, and also testimonials that they sustain a good moral character.

CIRCULAR OF INFORMATION

Terms of Admission

Students who wish to enter the Academy are required to furnish testimonials that they sustain a good moral character. Certificates of standing in their last schools are also required.

No age is prescribed for admission. Boys fourteen years of age usually possess sufficient maturity for the responsibilities of the school life. The school is not a suitable one for boys who are idle, wayward, or averse to study, or for such as require the supervision of a teacher and the routine of a school-room to enforce industry and fidelity.

Time of Admission

The School Year begins with the Fall Term, and students should enter the Academy promptly upon the first day of the year; students may enter at any time, if qualified to join some class already formed. While they remain they will be enrolled in one of the regular classes, and will pursue the prescribed course; exceptions are only provisional. Candidates for advanced standing are examined in the studies already passed by the class which they propose to enter.

Entrance Examinations

Examinations will be held on Friday, June 19, 1896; on Wednesday, September 16, 1896, at 9 o'clock A. M. and on the first day of the second and third terms. A fee of three dollars is charged for examinations held at other times than those stated. The schedule of examinations given on page 16 will indicate in detail the requirements for admission to the several classes. Candidates for admission should if possible present themselves for the June entrance examinations.

Religious Exercises

The school day begins with prayers at ten minutes before eight o'clock. The students attend church on Sunday at the Chapel erected for the joint use of the Theological Seminary and the Academy. Regular members of Protestant Episcopal, Baptist, or Roman Catholic congregations may be excused to attend the churches of these denominations.

Examinations and Promotions

Examinations, conducted in writing, are held in each study once, at least, in each term; at the end of the first and second terms in the studies of the term; and near the close of the year with reference to promotion and graduation. Promotion and graduation are secured only by those who give satisfactory evidence of the requisite proficiency. Reports of the standing and deportment of the students are sent to parents or guardians at the close of each term, and at other times when occasion requires. Class officers, members of the Faculty, have under their care the assignment of studies for the pupils and conduct correspondence relating to their school life.

EXPENSES

Parents can estimate approximately the necessary expenses of their sons here; and it is particularly requested that they do not furnish money beyond what is necessary for ordinary expenses. Pupils who are supplied with much spending money, or who are allowed to make debts, usually accomplish but little in their studies, and are liable to form habits which require their removal from school.

Term bills

The term-bills are as follows: for the Fall Term, $30.00; for the Winter Term, $25.00; for the Spring Term, $20.00. A laboratory fee of $5.00 a term is required of students in Chemistry or Physics. There is a graduation fee of $7.00. The term-bill is due and payable at the commencement of the term. Checks should be drawn in favor of the Trustees of Phillips Academy.

BOARD AND LODGINGS

I. Private Houses About forty families in the vicinity of the Academy under license from the Trustees provide board and lodgings for students, and no student may occupy a house not thus sanctioned by the School.

In these houses some families provide furnished rooms only; others provide rooms and board, and some of the latter furnish board for students rooming in neighboring houses.

The price of table board in Commons is $3.00, and in private families from $4.00 to $7.00 per week. The price of furnished rooms, including ordinary service, is from $3.00 to $6.00 per week and upwards.

Engagements for room in private families continue to the end of the Academic year. Care should therefore be exercised in the selection of rooms. Engagements for table board may, on permission and suitable notice, be terminated at the close of any term.

II. Cottages By the gifts of Mr. Melville C. Day, class of 1858, Mr. Warren F. Draper, class of 1843, and of many citizens of Andover, aided by a few friends outside of Andover, four small dormitories have been built, called respectively, "The Taylor," "The Andover," "The Draper," and "The Bancroft." They are built of brick with granite trimmings, and careful attention has been given to the warming, ventilation, water supply, bath and toilet arrangements, and the drainage. Each building contains apartments for a resident teacher. The Taylor and the Draper contain five double suites for students; the Andover has five double suites and three single rooms; the Bancroft has four double suites, two single suites, and one single room. Each suite has separate bedrooms, an open fireplace, ample closet room, and a storage locker in the attic. Table board for students in these dormitories may be secured in Commons at $3.00, or in private families at $4.00, $5.00, $6.00, or $7.00 per week. Students in the Draper are regarded as rooming in Commons.

These accomodations for four teachers and forty-five pupils are a partial realization of a plan to replace, as fast as funds are provided for the purpose, the present Latin and English Commons with modern buildings, combining improved sanitary arrangements with comfortable and homelike rooms, as favorable as possible to the best student life. The income derived from the fees is applied first to maintenance, second to certain life annuities attached to the deeds of gifts, and third to the aid of deserving students who need pecuniary aid.

Students who use tobacco in any form, occasionally or habitually, must not apply for these rooms. No furniture is supplied by the school. The fees include the charge for heat and for the care of the rooms.

PRICE OF ROOMS FOR 1896–97.

For a double suite in the Taylor, the Andover, the Bancroft, each student,	$80.00
For a double suite in the Draper (not including service), each student,	40.00
For a single suite in the Bancroft,	100.00
For a single room in the Andover,	45.00
For a single room in the Bancroft,	35.00

III. Commons

There are fifty-six rooms in Commons for pupils, and four for teachers. Each room is designed for two persons and has two single bedrooms connected with it. The price of rooms is $3.00 per term for each student. The rooms are supplied only with tables, and bedsteads for single beds. Bedding is usually brought from home. Stoves and other articles necessary to furnish a room can be obtained here at reasonable prices. Plans of the rooms and other information may be had by addressing the Registrar. The accomodations provided in Commons are very plain, and intended expressly for those who wish to make their expenses small. Persons who use tobacco, occasionally or habitually, must not apply for rooms in Commons.

Persons who room in Commons are required to board in Commons. Students rooming, without board, in private houses, may board in Commons if there are vacant places. The price of table board by the term is at present $3.00 per week, payable monthly in advance. The rate for the short vacations, and for fractions of a term, is $4.00 a week. The house opens September 14, 1896.

ENDOWMENT

Beneficiary Aid

The *Farrar Fund*, a legacy from the late Treasurer Samuel Farrar, Esq., amounts, with additions from income, to Twenty-two Thousand Dollars.

The *Students' Educational Fund*, begun with a gift of $100 from the Senior Class of 1854, and enlarged by their efforts to $1,800, now amounts to $5,700. The Trustees desire to increase this fund to at least $25,000, in order to meet the opportunity for assisting worthy young men, ambitious to secure a liberal education.

Scholarships

The following scholarships have been established:

The *Clarke Scholarship* of $1,200, established in 1870 in memory of Mrs. Jane Aiken Clarke.

The *Jonathan Taylor Scholarship* of $1000, established in 1878 by the late Edward Taylor, in memory of his father.

The *Peter Smith Byers Scholarship* of $500, established in 1878 by the late John Byers.

The *French Scholarship* of $1000, established in 1879 by the bequest of Hiram W. French.

The *Class of 1878 Scholarship* of $500, established by the Classical class of 1878.

The *Caroline Parker Taylor Scholarship* of $1000, established in 1880 by Mrs. Alpheus Hardy.

The *Gerard Sumner Wiggin Scholarship* of $1000, established in 1882 by the bequest of Lady Elizabeth Sumner Buckley-Mathew Fleming.

The *Charles L. Flint Scholarships* of $5000, established in 1890 by the bequest of Hon. Charles L. Flint.

The *Emma Lane Smyth Scholarship* of $1000, established in 1890 by Ex-Gov. Frederick Smyth.

The *James and Persis Taylor Scholarship* of $1000, established in 1890 by Mrs. Mary E. Fairbanks.

The *Henry P. Haven Scholarship* of $1000, established in 1890, by the estate of Henry P. Haven.

The *Dowe Scholarship Fund* of $3000, established in 1892 by the bequest of John Dowe.

The *John Cornell Scholarship Fund* of $5000, established in 1894 by the bequest of the late John Cornell.

The *James Calvin Taylor Scholarship* of $1000, established in 1895 by his sister, Mrs. Mary E. Fairbanks.

A limited number of deserving students who intend to complete the classical course preparatory for college can be admitted free of tuition, on furnishing to the Principal satisfactory evidence that their circumstances are such as to render the aid necessary. Students not able to pay the full price of tuition can have such a reduction as may be required, on similar evidence. Careful preliminary correspondence should be conducted by those who desire this assistance. Students of the Scientific Department are not admitted free of tuition, but in special cases they may receive aid from the beneficiary funds.

Besides remitting the tuition fees, the Academy has been able to aid a few young men during the past year from the income of the above funds, in sums varying from $10.00 to $50.00, according to their circumstances. Conduct and scholarship, as well as pecuniary necessities, are considered in the distribution.

Endowment In addition to the early endowments by Hon. Samuel Phillips, Dr. John Phillips, Hon. Wm. Phillips, Lieut.-Gov. Samuel Phillips, His Honor Wm. Phillips, and others, and the Scholarship Prizes, and Charity-funds mentioned elsewhere, gifts for buildings and for general purposes amounting to $71,000 have been more recently received (1878–96), and endowments have been made as follows: George Peabody Foundation for Natural Sciences (1866), $25,000; Samuel H. Taylor Fund (1871), $3,700; John C. Phillips Foundation of the Latin Department (1878), $25,000; Peter Smith

Byers Foundation for the Principalship(1879), $40,000; Alden Educational Fund (1881), $5,000; Stone Educational Fund (1884), $25,000; W. F. Draper Fund (1887), $2,500.

Libraries The "Samuel H. Taylor Memorial Library" contains about 2,500 books, including the valuable classical library of the late Principal, Dr. Taylor, which was presented to the school (1876) by his sister, Mrs. Horace Fairbanks of St. Johnsbury, Vt. The " Associate Library " belongs jointly to the Philomathean Society and the Society of Inquiry, and contains 800 volumes There are small special libraries in English, Classics, History, and Natural Science. The library of the Theological Seminary, and the Memorial Hall Public Library, aggregating 60,000 volumes, are accessible for consultation daily.

Societies The Philomathean Society (1825) and the Forum (1892) hold weekly meetings for literary improvement The Society of Inquiry (1833) is a religious society and holds devotional meetings Sunday and Wednesday evenings in Society Hall.

Gymnasium The gymnasium is a substantial brick building, forty feet by ninety, two stories high, and furnished with apparatus for both the light and heavy gymnastics.

Location, etc. Andover is a town of six thousand inhabitants, situated on the Western Division of the Boston and Maine Railroad, twenty miles north of Boston. It is the seat of the Andover Theological Seminary, Prof. George Harris, D. D., President of the Faculty, and of the Abbot Academy for young ladies, Miss Laura S. Watson, Principal. For convenience the following additional addresses are given: John Tyler Kimball, Cashier of the Andover National Bank; John Kimball, Station Agent, Boston and Maine Railroad; E. P. Hitchcock, proprietor of the " Mansion House," the local hotel connected with the institutions; Warren F. Draper, the "Andover Publications"; George A. Higgins, the Andover Bookstore; John N. Cole, the *Townsman*, and the Andover Press.

CLASSICAL DEPARTMENT

The course of study is designed to furnish adequate preparation for any college. It is decidedly advantageous for students to take the entire course in the Academy. The languages are taught with a view to the student's progressive development. In the early study emphasis is laid upon the thorough knowledge of the forms and ordinary usages of the language. Composition work is insisted upon from the beginning. Later, effort is directed toward accuracy and nicety of translation, accompanied by critical study of syntax. In the study of poetry attention is called to the differences between poetic and prose diction. In the higher classes the elements of style and of literary criticism are studied and the student is trained to facility in reading at sight. Throughout the course he is taught to notice and to value thoughts as well as words. An especially selected library affords opportunity for students to acquire the habit of supplementary reading.

Harvard or Yale preliminary certificates, at the discretion of instructors in charge of the various departments, are accepted as equivalents for courses passed Candidates for the Senior Class must take a college preliminary examination and obtain a certificate.

A variety of optional and extra studies is offered, especially in the Senior year, to meet the wants of students who are fitting for definite college requirements, or are to enter advanced divisions in the classics, mathematics, natural sciences, or modern languages, at the colleges, and also to provide for ambitious students who may wish to broaden their preparation. It is not practicable to show all the possible combinations in the course of study which follows. The classes in Physics and Chemistry have excellent facilities for practical work in the laboratories. Special students are not provided for, nor does the Academy undertake to fit boys for college in a minimum of time.

CLASSICAL COURSE

CLASS IV

Junior

FIRST TERM :

Latin. — Lessons. 6 hours.

Mathematics. — Algebra, begun. 4 hours. Elementary Geometry. 2 hours.

English. — Grammar and Analysis. 4 hours.

SECOND TERM :

Latin. — Lessons completed. Grammar. Viri Romae, selections 25 pages. Exercises in writing. 6 hours.

Mathematics. — Algebra, continued. 4 hours. Elementary Geometry. 2 hours.

English. — Reading. Study of words. Composition. 4 hours

THIRD TERM :

Latin. — Caesar. Gallic War, Books II, III, IV. Composition (Daniell, Part I. § 56–90.) 6 hours.

Mathematics. — Algebra, completed. 4 hours. Elementary Geometry. 2 hours.

English. — Reading. Correction. Composition. 4 hours.

Note. — The amount of Latin reading done in the Junior year must be estimated on the basis of six recitations a week, full hour periods, and involving a large amount of drill as well as instruction. The course in Elementary Geometry includes rule and compass practice and constant use of the Metric System. The construction and the measurement of simple geometrical figures are emphasized rather than the theory of demonstration.

CLASS III

Junior Middle

FIRST TERM:

Latin. — Caesar, Gallic War, Books I and V. Nepos, selections, six lives. Reading at sight. Composition (Jones, 15 lessons.) 6 hours.

Greek. — White's Beginner's Book. 4 hours.

Modern Languages. — French or German. 4 hours.

English. — Readings. College requirements. Compositions. 2 hours.

SECOND TERM:

Latin. — Ovid, selections, 550 verses. Vergil, Æneid begun. Prosody. Composition (Jones, through lesson 35). 6 hours.

Greek. — White's Beginner's Book. 4 hours.

Modern Languages. — French or German. 4 hours

English. — Readings. Punctuation. 2 hours.

THIRD TERM:

Latin. — Vergil, Æneid, Books I. and II. Composition (Jones, completed. Collar, 16 lessons.) Written Translations. 6 hours.

Greek. — White's Beginner's Book. Xenophon, Anabasis, Book I, Chaps. I–V. 4 hours.

Modern Languages. — French or German. 4 hours.

English. — Reading. Exercises in Composition. 2 hours.

CLASS II

Middle

FIRST TERM:

Latin. — Vergil, Æneid, Books III, IV, V. Reading at sight. Composition (Collar, 10 lessons). 5 hours.

Greek. — Xenophon, Anabasis, Book I, Chaps. VI–X, Book II. Composition. 5 hours.

Modern Languages. — French or German. 1 hour.

History. — Greek History. 3 hours.

Mathematics. — Algebra. 2 hours.

English. — Readings. Narrative and Descriptive Composition, 2 hours.

SECOND TERM:

Latin. — Vergil, Æneid, Books VI, VIII, IX. Written Translations. Composition (Collar, 16 lessons, or Daniell, Part I. Books III, IV). 5 hours.

Greek. — Xenophon, Anabasis, Books III, IV. Composition. 5 hrs.

Modern Languages. — French or German; prose selections. 1 hour.

History. — Greek and Roman History. 3 hours.

Mathematics. — Algebra. 2 hours.

English. — Readings. Narrative and Descriptive Composition. 2 hours.

THIRD TERM:

Latin. — Vergil, Æneid, Caesar, Gallic War, reviewed. Nepos, selections at sight. Composition. 5 hours.

Greek. — Hellenica, selections. Composition. Reviews. 5 hours.

Modern Languages. — French or German; prose selections. 1 hour.

History. — Roman History. 3 hours.

Mathematics. — Algebra. 2 hours.

English. — Readings. Argumentative Composition. 2 hours.

Note. — An opportunity is given by an increasing number of colleges to pass a preliminary examination in a part of the subjects required for admission. June examinations, both preliminary and final, are held in Andover by Harvard, Yale, and Princeton colleges.

In order to define the work of the pupil in his last year, it is required that he pass one of these preliminary examinations.

CLASS I

SENIOR

FIRST TERM:

LATIN. — Cicero, 6 selected orations. Composition. Reading at sight. Roman Antiquities. 4 hours.

GREEK. — Homer, 1200 verses. Composition. 4 hours.

MATHEMATICS. — Plane Geometry or Trigonometry. 4 hours.

NATURAL SCIENCE. — Physics. 4 hours, or

MODERN LANGUAGES. — French or German, Class III or Class A. 4 hours, or

HISTORY. — Political Economy. 2 hours.

ENGLISH. — Reading in College Requirements. Extempore Composition. 2 hours.

SECOND TERM:

LATIN. — Div. I, Ovid, 1500 verses. Livy, selections. Cicero, orations. Div. II, Vergil, 3000 verses. Composition. Reading at sight. 4 hours.

GREEK. — Homer, 1800 verses. Antiquities (Mahaffy). Composition. 4 hours.

MATHEMATICS. — Plane Geometry or Solid Geometry. 4 hours.

NATURAL SCIENCE. — Physics. 4 hours, or

MODERN LANGUAGES. — French or German, Class III, or Class A. 4 hours, or

HISTORY. — Political Economy. 2 hours.

ENGLISH. — Reading in College Requirements. Extempore Composition. 2 hours.

THIRD TERM:

MODERN LANGUAGES. — French or German, Class III, or Class A. 4 hours, or

HISTORY. — Political Economy. 2 hours.

ENGLISH. — Essays. 2 hours.

CLASSICAL COURSE—NOTES

GREEK.

Junior Middle Year.— The first year is devoted mainly to memorizing the forms of the language and fixing a few important principles of syntax. The class is constantly drilled to reproduce paradigms accurately and rapidly, as well as to inflect new words. The importance of review work is emphasized at every recitation. Black-board work occupies much of the time; this work the class is called upon to criticize. By an equal share of oral work the ear is trained to detect inaccuracy in accent or pronunciation. A ready command of the vocabularies is required; to secure this, there is both oral and written work; and writing Greek words at dictation is practiced.

The hours are varied with frequent exercises in translation, English into Greek as well as Greek into English, and occasional talks about Greek life. During the third term a simplified text of the first book of the Anabasis is used.

Middle Year. — The second year is occupied with reading Xenophon's Anabasis, Books I–IV., sight reading, translation from English into Greek, and grammar reviews. Great effort is made to secure simple, idiomatic English in both oral and written work. A portion of the following day's lesson is often translated at sight, and towards the end of the year, other works, particularly Xenophon's Hellenica, are used with special reference to sight reading.

Grammar and composition are studied through the year, the method being the same as during the first year; skill in writing Greek is made a chief object of this year's work.

Senior Year. — The third year is spent mainly in reading selected books from the Iliad and Odyssey. The work of the year is much broader in scope, however, than before. After the dialect is thoroughly mastered, more attention is given to the literary side of the poems; the art of translation is discussed; carefully prepared renderings in prose and metre are made by the class and read aloud. Much attention is paid to the translation of sight passages; in this there is almost daily practice, the object being to acquire ability to read large portions of Homer rapidly and with pleasure.

The study of antiquities and literature introduced during the second and third terms is intended to give a general survey of these subjects, and stimulate an interest in further reading.

LATIN.

Junior Year.—The Latin work of the Junior year consists of strict, unremitting drill in the essentials of the grammar, with the view to securing accuracy and ease in the use of forms. Careful training is given in methods of study. The student is taught from the beginning to grasp the concepts as well as the English equivalents of Latin terms, and to notice the order of thought in sentences. There is daily practice in the writing of Latin.

Junior Middle Year.—In the Latin of the Junior Middle year exceptional stress is laid upon a study of the grammatical relation of words in sentences. Case constructions are accurately discriminated and explained; the ordinary uses of the subjunctive and the infinitive are interpreted; and the more common idioms of Caesar are noticed.

The composition course is specially adapted to furnish ample practice in syntax, and to fit the student for the writing of simple connected narrative.

Midlle Year.—In the Middle year the course in Vergil aims towards a mastery of an extended vocabulary, an elementary knowledge

of synonyms, an accurate discrimination of poetic constructions, and facility in rhythmic reading. The student is encouraged to notice and appreciate beauty of thought and of expression. In rendering Latin into English carelessness in diction is not tolerated.

The work in prose composition is devoted to connected narrative.

SENIOR YEAR.—In this year the Latin study broadens with the view to promoting a scholarly ease in the reading of the literature prescribed. No effort is spared to induce a thorough understanding of the thought read, and an appreciation of its literary expression. Linguistic study is directed towards a wider knowledge of word-formation, and of the principles of syntax. Examinations are set largely from passages not previously seen by the student.

The study of Roman life aims to give a general survey of the subject

MATHEMATICS

SENIOR YEAR. — The course in Trigonometry, Solid Geometry and Analytical Geometry is open only to those who have completed a thorough course in Plane Geometry.

SCIENTIFIC DEPARTMENT

The object in this department, established in 1830, is to afford a substantial course of study, chiefly on the basis of Mathematics and the Natural Sciences, with History, Latin, Modern Languages and Literature.

The Course of Study is designed to furnish thorough preparation for the Lawrence Scientific School of Harvard University, the Sheffield Scientific School of Yale University, the Massachusetts Institute of Technology, and other scientific schools and colleges.

For illustrating the principles of Natural Philosophy the school is provided with excellent apparatus, which is used in lectures given in connection with the text-books. There is a well-equipped Physical Laboratory, for experimental work. An appropriation of $300 is made each year to procure the latest and best instruments.

The Academy is provided with a full set of instruments for courses in practical surveying, consisting of a solar transit, surveyor's compasses, levels, and other appliances.

The Science Building furnishes ample accomodations for the departments of Physics and Chemistry. The building contains, beside recitation rooms, a lecture room, a draughting room, a Physical and a Chemical Laboratory thoroughly equipped for individual work.

The Newton Cabinet contains several thousand specimens of rocks, minerals, fossils, insects, shells, and other illustrations of Natural History, and a small collection of coins, stone implements, and other valuable antiquities.
